BOARD ON GLOBAL HEALTH
FORUM ON PUBLIC-PRIVATE PARTNERSHIPS FOR GLOBAL HEALTH AND SAFETY

Planning Committee Biographies

Clarion Johnson, M.D., co-chair of the Forum on Public-Private Partnerships for Global Health and Safety, served as Global Medical Director of ExxonMobil Corporation until his retirement in 2013. Currently, Dr. Johnson is a consultant to ExxonMobil, the immediate past Chair of The Joint Commission's International and Resource Boards and a member of The Yale School of Public Health Leadership Council. He serves on several boards including the The Bon Secours Hospital System; the Advisory Board of The Yale School of Public Health; and the Board of the Milbank Memorial Fund. Dr. Johnson previously served on the U.S. National Academies' Board on Global Health. Dr. Johnson also has a HHS Secretary appointment to The NIOSH (National Institute of Occupational Safety and Health) Advisory Board and was a member of Virginia Governor's Task Force on Health reform and co-chair, Insurance Reform Task Force. He is the past chair of Virginia Health Care Foundation, and the Board of City Lights Charter School in Washington, D.C. He served as advisor and lecturer in the Harvard Medical School's department of continuing education "Global Clinic Course" 2005-2008. In 2013 he received the President's Award from the Oil and International Petroleum Industry Environment Conservation Association (IPIECA) and Oil and Gas Producers (OGP) for contributions to health and in 2012, he was the recipient of the Society of Petroleum Engineers (SPE) Award for Health, Safety, Security, Environment and Social Responsibility. In 2011, he received a medal from the French Army's Institute De Recherche Biomedical for "Project Tetrapole:" a public-private partnership in malaria research. Dr. Johnson is a graduate of Sarah Lawrence College and member of its Board of Trustees and the Yale School of Medicine. While on active duty in the US Army, he also trained as a microwave researcher at Walter Reed Army Institute of Research. He is Board Certified in Internal Medicine, Cardiology and Occupational Medicine.

Seema Kumar, M.Sc., is Vice President of Innovation, Global Health and Science Policy Communication at Johnson & Johnson (J&J). In this role, Ms. Kumar works to position J&J as a global pioneer in innovation and in research and development (R&D) and a partner of choice. Her responsibilities include communications regarding enterprise innovation and R&D, medical safety and ethics, policy, and global health. She also serves as the communication leader for the Johnson & Johnson R&D Management Committee and the Johnson & Johnson Innovation Centers.

Ms. Kumar previously served as the Vice President, Enterprise Innovation and Global Health Communication and as Vice President, Global R&D Communications of the Janssen Pharmaceutical Companies of J&J.

Prior to joining J&J, Ms. Kumar was the Chief Communications Officer at the Whitehead Institute for Biomedical Research /Massachusetts Institute of Technology (MIT) Center for Genome Research, the flagship center for the Human Genome Project.

Ms. Kumar holds a master of arts degree in science journalism from the University of Maryland, which included a fellowship at the National Cancer Institute, a bachelor of science and communication from the University of Maryland, and a bachelor of science in physics from Stella Maris College, in Madras, India.

Cara Bradley is PATH's chief corporate engagement officer, leading its global strategy to expand industry partnerships to solve the world's most challenging health problems. Her team brings together programs, countries, companies, funders, and policymakers to drive our corporate engagement activities, with a focus on multisector partnerships that take innovation to scale and improve life for hundreds of millions of people every year.

Ms. Bradley is a passionate global health advocate who has committed her career to advancing a rights-based approach to development. She joined PATH in 2015 to help expand and deepen our private-sector relationships, with a focus on shared-value partnerships that benefit society as well as the bottom line.

Ms. Bradley has more than 12 years of experience developing groundbreaking industry partnerships and expanding the capacity of international organizations to partner with industries globally. Before joining PATH, she led a multidisciplinary European fundraising division at International Rescue Committee. Prior to that, she worked at UNICEF, WaterAid, and other leading nongovernmental organizations.

A native of the United Kingdom, Ms. Bradley earned her B.A. from Kent University.

Brenda D. Colatrella, M.B.A., is Executive Director, Corporate Responsibility (CR) at Merck & Co., Inc., a central function that coordinates the development, implementation and reporting of Merck's global corporate responsibility approach on environmental, social, ethical and governance issues in alignment with the company's business strategy. She also oversees several of Merck's global health partnerships and relationships with key partners and is involved in the development of policies that help to expand access to medicines, vaccines and quality health care particularly in the developing world and emerging markets. She also serves as President of the Merck Foundation, a U.S. based private charitable foundation established in 1957 that is funded entirely by Merck and is Merck's chief source of funding support for qualified nonprofit charitable organizations. Ms. Colatrella is also the President of the Merck Patient Assistance Program Foundation which provides free Merck medications and adult vaccines to eligible individuals in the United States who need specific Merck medicines and vaccines but do not have access to them through insurance coverage and who cannot afford to pay for them. Prior to assuming this position, Ms. Colatrella was Executive Director, Global Health Partnerships, within the Office of Corporate Responsibility, responsible for key global health and access partnerships and Merck's relationships with a wide range of stakeholders in the global health arena. She also held the position of Executive Director, HIV Policy and External Affairs for the Europe, Middle East, Africa, Canada region, with a primary focus on driving Merck and industry initiatives to improve access to HIV/AIDS care and treatment in the developing world, and was Senior Vice-President, The Merck Foundation, and Senior Director, Office of Contributions, responsible for all Foundation and corporate cash grant making activities, product donations programs (e.g., the Merck Mectizan Donation Program). Ms. Colatrella received her B.A. from Muhlenberg College, summa cum laude, Phi Beta Kappa, and her M.B.A. from New York University's Stern School of Business where she was the recipient of the Dean's Award. She has published several articles on the Mectizan Donation Program, the role of the private sector in global health, and successful public-private partnerships.

James Coughlan provides supply chain design expertise to The UPS Foundation and its humanitarian partners, leveraging 30 years of UPS experience as the former Global President of UPS Customer Solutions. Upon retiring from UPS, James became a Supply Chain Expert on Mission for The UPS Foundation to fulfill his passion to engage the humanitarian sector, providing support for supply chain strengthening and capacity building efforts of leading humanitarian agencies.

Hannah Kettler, Ph.D., is an economist and senior program officer on the Global Health Advocacy team at the Bill and Melinda Gates Foundation. She is responsible for a portfolio of grants and projects that aim to secure adequate financing and a supportive policy environment for global health product innovation and introduction. Given the important role that for-profit companies in both the north and south play in product development, much of her work is focused on reducing risks, and designing of financial incentives and business models to encourage greater private sector company engagement. Prior to joining the Gates Foundation in March 2003, Ms. Kettler led a two year Rockefeller Foundation funded project titled “Biotechnology and Global Health” at the Institute for Global Health at the University of California San Francisco. The recommendations and evidence base created in this project motivated BIO and the Bill and Melinda Gates Foundation to establish BIO Ventures for Global Health in 2004.

Gabriella Morris, J.D., is UNICEF USA’s Senior Vice President of Strategic Partnerships. In her current role, she oversees the Foundations, Corporate Partnerships and Global Cause Partnerships teams, aligning strategy, partnership development, resource mobilization, and donor relations with UNICEF’s programmatic needs. Prior to this appointment she was the Senior Vice President of UUSA’s In Kind Assistance Corporation and the UNICEF Bridge Fund (the “Fund”), an innovative financial tool created by UNICEF USA to fast-track lifesaving assistance to children in need around the world.

Before joining UUSA, Gabriella completed 26 years of service in senior legal, philanthropic, and community relations positions at Prudential Financial. She served as President of The Prudential Foundation and Corporate Vice President of Community Resources for 17 years. She directed all aspects of Prudential’s interface with communities, national and global philanthropies, and nonprofit organizations, as well as the firm’s government, business, academic and community thought-leadership. She oversaw the company’s philanthropy, contributions, social/impact investments, employee volunteerism, community relations and business diversity outreach. Prior to her role in Community Resources, Gabriella served as Prudential’s legal counsel to The Southland Corporation in Dallas, Texas, and before that served as Associate Counsel with the Houston, Texas-based law firm of Baker & Botts, in its securities, real estate and oil and gas practices.

Gabriella has served on numerous boards, agencies and public-sector committees that reflect her interests and passions. She currently sits on the boards of the Annie E. Casey Foundation, the Harlem School of the Arts, the New Jersey Performing Arts Center Women’s Association and the NAACP Legal Defense and Education Fund. She is a founding board member of the United States Artists, the Newark Trust for Education and the Brick City Development Corporation. She previously served on the boards of the Wells Fargo Regional Foundation, the Alvin Ailey

American Dance Theater and Living Cities. Gabriella assumed her first volunteer position at the age of nine, supporting her mother in launching a pilot Head Start program.

Gabriella received an A.B. in Architecture and Urban Planning and a Certification in African-American Studies from Princeton University, and a J.D. from The University of Texas School of Law. She has received professional certifications from Harvard Business School's Executive Education program in Corporate Social Responsibility and from Stanford University's Center for Social Innovation.

Shawn Standridge, D.O., M.B.A., M.S., is the Global Medical Director for Procter and Gamble Corporation. He has led Procter and Gamble's strategic expansion from Occupational Health to Employee WellBeing and Global Health. Viewing the health and wellbeing of every employee is essential for sustainable innovation and success. P&G established a globally consistent standard for Employee Health and Well-Being, investing effort to ensure each employee has access and resources needed to protect and promote their personal health. Managing over 140 Vibrant Living Health Centers across 42 countries, P&G uses 300,000 Employee visits each year as an opportunity to "inspire meaningful, happy, healthy lives." With employees bringing out their best at home and within their communities, P&G's WellBeing strategy is creating new opportunities to improve Global Health and Corporate Citizenship through Community Impact, Diversity and Inclusion and Gender Equality.

Mary Lou Valdez, M.S.M., is the Associate Commissioner for International Programs in the Food and Drug Administration where she leads the Office of International Programs staff in China, Europe, India, Latin America and FDA headquarters. She is responsible for catalyzing FDA global engagement in collaboration FDA Centers and Offices, as well as with international health and regulatory partners, ministries of health and agriculture, other U.S. Government Agencies, industry, academia, multilateral organizations, and related stakeholders.
