Applying Clinical Practice Guidelines to Prescribing Opioids for Acute Pain: A Workshop

AGENDA

Hosted by the Committee on Evidence-based Clinical Practice Guidelines for Prescribing Opioids for Acute Pain

Keck Center, Room 100, 500 Fifth Street, NW, Washington, DC

Workshop Objectives

- Identifying and prioritizing surgical procedures and medical conditions associated with acute pain for which opioid analgesics are prescribed and considered clinically necessary where evidenced-based clinical practice guidelines would help inform prescribing practices.
- Identifying what evidence is necessary or missing for each procedure/condition mentioned above.
- Using evidence to inform the development of clinical practice guidelines for opioid prescribing for acute pain.
