(U) CBRN RESPONSE ENTERPRISE

(U) US Military forces are task-organized and given the mission to quickly respond to domestic chemical, biological, radiological, and nuclear incidents.

(U) NATIONAL GUARD FORCES (Title 32 Commanded by The Adjutant General/Governor)

(U) WMD-CST: Weapons of Mass Destruction Civil Support Team. 1 per state/territory*

(U) CERFP: CBRN Enhanced Response Force Package. Regional

(U) HRF: Homeland Response Force. 1 per FEMA Region

(U) FEDERAL FORCES (Title 10 Active Duty – Commanded by USNORTHCOM)

(U) DCRF: Defense CBRN Response Force

(U) C2CRE: Command and Control CBRN Response Element

(U) Life Saving Incident Response Force (IRF)

IRF: The nucleus of the CERFP, HRF, DCRF, and C2CRE is the IRF (or IRF-like capability). An IRF provides critical lifesaving capabilities to conduct contaminated area Search and Rescue, Detection/Monitoring, CBRN Mass Casualty Decon, and provides a forward initial emergency medical triage (level II/ASMC) capability. A small Command element provides coordination and external liaison for integration within its military chain of command, and within civil incident command.

(U) Enterprise Priorities

1. Get There Quickly
2. Save Lives
3. Minimize Human Suffering
4. Maintain Public Confidence

(U) Integrated Local, State, and Federal Response Concept

>18,000 FOC 1 Oct 12

*Each state plus one in DC, GU, VI, PR & Samoa; CA and NY have two CSTs each
**Tailored to Incident, Arrives in Force Packages
***Not all personnel would respond to each incident, in the concept outlined above, the force is tailored

(U) TOTAL MILITARY RESPONDERS***
