

NASEM Report and NAEVR Mission

NAEVR recognizes the power of NASEM Reports in Congressional deliberations about NIH funding and structure/management issues. Potential uses include:

- **Recognition of the growing public health problem of vision impairment and eye disease–NAEVR Congressional testimony, suggested NEI Report Language, AEVR (5901c3 educational foundation) Congressional Briefings.**
- **Adequate federal funding for the public health “tools” (CDC) to characterize and biomedical research (NEI) to address–PB and NAEVR testimony/Report Language, sign-on letters with public health partners.**
- **Potential engagement of the Congressional Vision Caucus, potential authorizing legislation that relates primarily to CDC and potentially NEI.**
- **Engage vision community in innovative public/private partnerships to address/implement NASEM recommendations.**
