- What Immuno-Therapy is: 48.4%
- What Immuno-Oncology is: 47.6%
- Questions to Ask Doctors and Health Professionals: 45.7%
- Myths and Misconceptions: 43.3%
- The Science Behind Immuno-Oncology: 43.2%
- The Science Behind Immuno-Therapy: 41.9%
- All Of The Above: 41.2%
Evolving Hope and Purpose

“I think your purpose evolves as your experience changes. This is a chronic illness. It doesn’t go away, and there is no end. My story comes up in daily life and there are people close to me who don’t want to hear my story anymore. Others want to move on. I’m not on treatment anymore, but they don’t understand that physically and emotionally I am not the same person I was before.”

— Lilly A., living with melanoma
