Pertinent Models for Achieving PPP
1. Supply Chain

- MSD is a premier supply chain under MoH
- It is serving around 30 million people
- The procurement volume is USD 400M
- More than 80% of procurement is done from overseas

- Private Suppliers 400
- Imported Pharmaceutical Value $900M
- Supply largely to private sector (Hospitals/NGOs)
- Local Manufacturers only six
Prime Vendor System
Prime Vendor System

Medicines Availability rose from 61% to 95% within 5 years

- Delivery Time: <10 days
- Purchase Value: $1M
- Performance: >92%
- Order Fulfilment: >99%
2. PPP – Service Agreements
## PPP in Healthcare Delivery

PPP – Service Agreements

FBOs

- 900 Health Facilities
- 70 health learning institutions
- Health Promotion & Prevention
- Serves the rural & hard to reach areas

Private for profit/self sustained

- Medical Supplies
- Universities

SLA

- Funding: 63% from the Gov.
- HRH: 64% paid by the Gov.
- Information Systems: 40% use are connected with Gov.
3. Health Insurance

**NHIF (2014/2015) Tsh $180M**
- • 36% to Government facilities
- • 34% FBOs; and
- • 30% to the Private

**NHIF Private Support**
- • $7M Loan Provided
- • Healthcare Financing Innovation
- • iCHF scheme
4. Health Systems Strengthening

- PlanRep program to improve planning, budgeting and reporting, resulting in efficiency gains and more realistic budgets.

- Also, all facilities are using the new web-based Facility Financial Accounting and Reporting System to improve transparency and financial management.

- PS3 supported 185 Local Government Authorities use evidence to better distribute 6,180 new health workers across the country by institutionalizing Workload Indicators of Staffing Need (WISN) plus Priority Optimization Analysis (POA).
Thanks!
