

Central Policy Files

1987

The Central Policy Files of the National Academies Archives contain the administrative records of the National Academy of Sciences and its operating arm, the National Research Council, as well as administrative records of the National Academy of Engineering and the National Academy of Medicine. The records in the Central Policy Files encompass operational and program papers documenting the operations and organization of the Academy complex and its study committees. The Academies' activities with international non-governmental scientific unions and organizations are particularly well-represented in the collection.

The documents that make up the Central Policy Files were created and/or received by the institution's Executive Offices while conducting institutional business. The collection therefore only includes institutional, and not personal, papers. The records contained in the Central Policy Files are considered privileged records and are closed to the public for a period of twenty-five years. Records in the Central Policy Files twenty-five years old and older are open to qualified researchers.

The records in the Central Policy Files are organized according to the NAS Records System, the structure of which follows the organization of the institution at the time the records in question were created. Under this system, the placement of an activity within the collection may change over a period of years, corresponding to changes in the organization of the institution. Beginning with the arrangement of records created in 2000, a modified and streamlined version of the NAS Records System has been in place.

For ease of use, the Central Policy Files are divided into discrete date banks, each of which encompasses a given number of years. Outline finding aids to the Central Policy Files correspond to date banks as they exist in the Archives. Because the Academies' activities are so numerous and varied, it is not possible to give capsule descriptions of each. However, the individual entries in the outlines to the collection should provide a general idea of the scope and subject matter of the activities documented.

ADMINISTRATION

COMMITTEES & BOARDS

- Committees
 - Science Engineering & Public Policy (COSEPUP)
 - Meetings
 - Panels
 - Impact of National Security Controls on International Technology Transfer
 - Technology & Employment
 - Report: Review
 - General
 - Research Briefings for Office of Science & Technology Policy (OSTP) & Selected Federal Agencies
 - Panels: Trends in Scientific & Engineering Research

TRANSPORTATION RESEARCH BOARD (TRB)

- Annual Report
- Committees
 - NRC Oversight: Membership
 - Study on Pipelines Land Use & Public Safety
 - Study to Identify Measures that May Improve Safety of School Bus Transportation
 - Benefits & Costs of Alternative Federal Blood Alcohol Concentration Standards for Commercial Vehicle Operators
 - Geometric Design Standards for Highway Improvements
 - New Organizational Patterns in Urban Public Transportation
 - Relationship between Vehicle Configuration & Highway Design
 - To Identify Research Needs in Occupant Restraints
- Conferences: New Organizational Responses to Changing Transit Environment: Proceedings
- Executive Committee

- Meetings
 - Membership
 - General
- Magazine: TRNews
- National Cooperative Highway Research Program (NCHRP)
- National Cooperative Transit Research & Development Program
- Panels
 - Airport Macrosystem Review
 - Graduate Research Award Program on Public-Sector: Aviation Issues
 - Peer Review of Application Review Criteria for University Transportation Centers Grant Program
- Studies: Cost Effectiveness of State Motor Vehicle Inspection Programs: Proposed
- Summer Minority Transit Internship Program
- Task Force: Review Guidelines for Construction Management Developed for Urban Mass Transportation Administration
- General

FINANCE & ACCOUNTING

ACCOUNTING

- Auditing Committee
 - Meetings
 - General
