

The Social-Ecological Consequences of Future Wildfire in the West: A Workshop

June 13-14, 2024

Genny Biggs
Program Director, Wildfire Resilience Initiative

About the Moore Foundation

"We want the Foundation to tackle large, important issues at a scale where it can achieve significant and measurable impacts."

- Founded by Gordon and Betty Moore, November 2000
- First grant March 2001 payments now exceed \$4.2 billion

Strategy hierarchy

VISION

Wildfire resilience in Western North America

OUTCOME

Resilient fire-prone communities

Healthy fire-adapted ecosystems

STRATEGIES

Early-fire interventions

Reduce threat of extreme wildfire and enable beneficial fire through improved and integrated early detection, assessment, response

Pre-fire (community) interventions

Decrease communities' fire disaster risk through implemented mitigations

Pre-fire (ecosystem) interventions

Reduce ecosystem vulnerability through improved stewardship

Deeper understanding

Increase knowledge and understanding of wildfire and changing fire regimes across the portfolio

Enabling conditions

Enable wildfire resilience through innovation, aligned policy and incentives, advocacy, communications.

Measurement and evaluation

Identify, adapt, track meaningful indicators and outcomes and impact metrics
