Taking Stock of Science Standards Implementation: A Summit
Rural Science Standards Implementation Coffee Talk
Wednesday, February 16, 2022 | 2:00 PM-3:30 PM EST

Moderated by: Tom Keller, *Founder and Director, STEM Education Strategies, LLC*

Science standards implementation is a broad landscape that covers a wide array of levers to include how much time is devoted to science and engineering, the tools and resources that are available, and teacher preparation and use of particular pedagogical approaches. How this is happening in our rural communities is of utmost importance. Please join the National Academies of Sciences, Engineering, and Medicine's Board on Science Education for a series of webinars based on the recent summit on Taking Stock of Science Standards Implementation. The second webinar in the series, moderated by Tom Keller, will hone in on implementation efforts within rural communities. A panel discussion with small group think time will be used to allow the science education community to reflect on and discuss how to best support rural science standards implementation efforts.

Panelists:

Zoe Evans, *Principal, Bowdon High School, GA*

Carissa Haug, *Regional Science Coordinator, NCESD, WA*

Tonya Prentice, *Middle School Science Teacher, Tremont Consolidated School, ME*

Autumn Rivera, *Middle School Science Teacher, Glenwood Springs Middle School, CO*

Doron Zinger, *Director, CalTeach Science and Math Program, University of California, Irvine*
