THREE REFLECTIONS

```
graph LR; A[Three Reflections] --> B[Revisit existing studies about implementation science and use that knowledge to move forward.]; A --> C[Cultivate an identity and home for researchers who study implementation aimed at advancing justice.]; A --> D[Increase funding for research that understands and tests when implementation advances justice.]
```

Revisit existing studies about implementation science and use that knowledge to move forward.

Cultivate an identity and home for researchers who study implementation aimed at advancing justice.

Increase funding for research that understands and tests when implementation advances justice.
