Workshop on the PCOR Data Infrastructure

Jacob Kean, PhD

Research Scientist, VA Informatics and Computing Infrastructure (VINCI)

Salt Lake City VA Health Care System, Department of Veterans Affairs

Associate Professor, Department of Population Health Sciences

University of Utah School of Medicine

Meeting PCOR Research and Data Capacity Challenges

- Great progress

- An Exemplar
  - Department of Defense and Department of Veterans Affairs Infrastructure for Clinical Intelligence (DaVINICI)

- Governance and Compliance

- Data Standardization

- Data Quality

- Education and Partnership

Linked Data, Public and Private

- Advances lead to a new set of challenges
  - Knowledge of many sources of data
    - Standards
  - Costs

- Distributed Ledger/Blockchain Technologies

Phased-In Approach to Building Interoperable Data Capacity

- Federated Models
- Federated Learning Technologies
