

Federal Statistics at the Forefront of Artificial Intelligence

Dr. Karin Orvis

Chief Statistician of the United States

Office of the Chief Statistician
of the United States

AI Day for Federal Statistics
Committee on National Statistics, NASEM

May 2, 2024

Outline

- Overview of the Federal Statistical System
- AI M-24-10 “Advancing Governance, Innovation, and Risk Management for Agency Use of Artificial Intelligence”
- AI governance and federal statistical activities

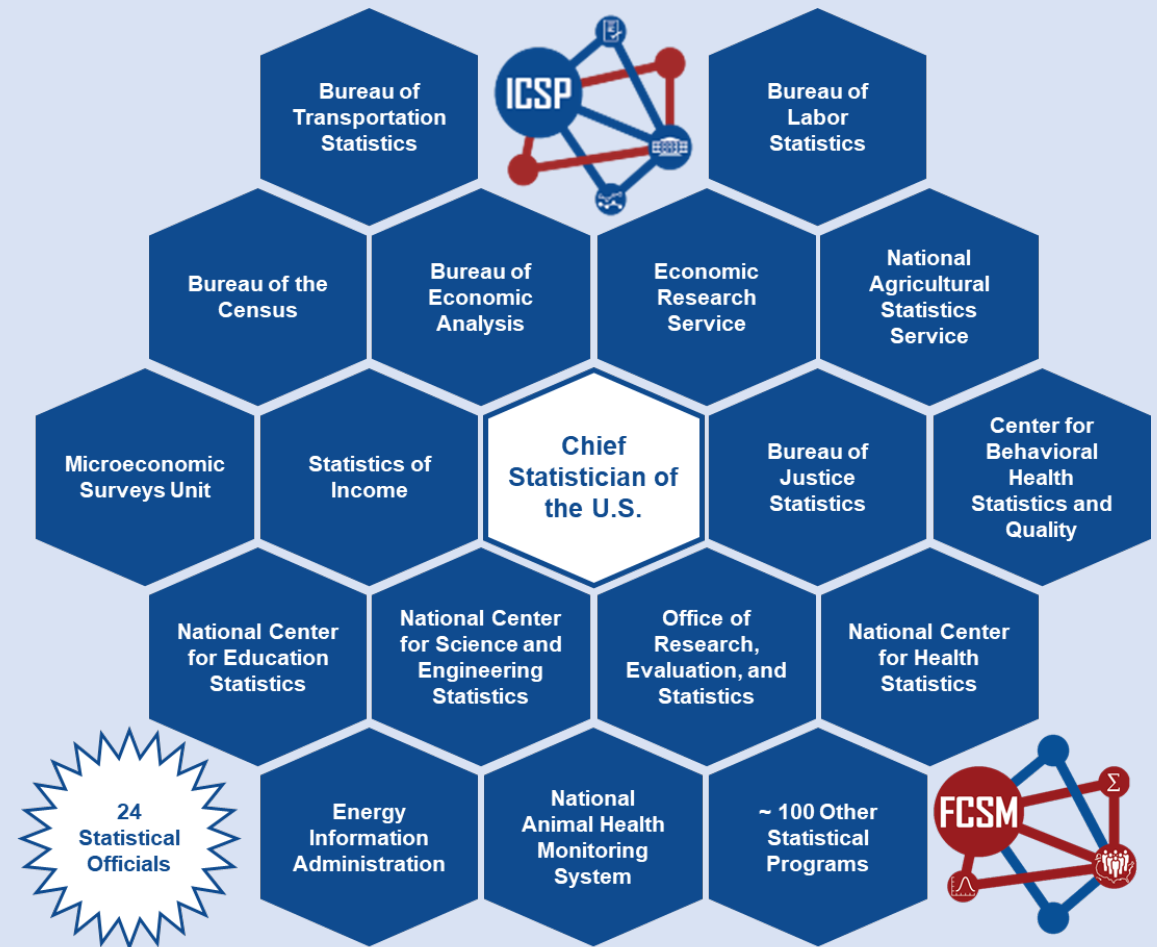

U.S. Federal Statistical System

Decentralized, Interconnected System

- Chief Statistician of the United States (CSOTUS)
- 16 Recognized Statistical Agencies and Units (RSAUs)
- ~ 100 Other Statistical Programs
- 24 Statistical Officials (S.O.s)
- Interagency Council on Statistical Policy (ICSP)
- Federal Committee on Statistical Methodology (FCSM)

U.S. Federal Statistical System

The Federal Statistical System is a Diverse Ecosystem

- Large and Small
- Longstanding and New
- All critical

EXECUTIVE OFFICE OF THE PRESIDENT
OFFICE OF MANAGEMENT AND BUDGET
WASHINGTON, D.C. 20503

THE DIRECTOR

March 28, 2024

M-24-10

MEMORANDUM FOR THE HEADS OF EXECUTIVE DEPARTMENTS AND AGENCIES

FROM: Shalanda D. Young *Shalanda D. Young*

SUBJECT: Advancing Governance, Innovation, and Risk Management for Agency Use of Artificial Intelligence

<https://www.whitehouse.gov/wp-content/uploads/2024/03/M-24-10-Advancing-Governance-Innovation-and-Risk-Management-for-Agency-Use-of-Artificial-Intelligence.pdf>

Office of the Chief Statistician
of the United States

Three Pillars of M-24-10

**STRENGTHENING
AI GOVERNANCE**

**ADVANCING
RESPONSIBLE AI
INNOVATION**

**MANAGING RISKS
FROM THE USE OF AI**

Scope of Applicability to Federal Statistical System

*“In addition, **this memorandum does not supersede** other, more general Federal policies that apply to AI but are not focused specifically on AI, such as **policies that relate** to enterprise risk management, information resources management, privacy, accessibility, **Federal statistical activities, IT, or cybersecurity.**”*

Scope of Applicability to Federal Statistical System

- OCSOTUS interprets this to broadly apply to: All statistical analysis, statistical data collection, statistical information release, etc.
- M-24-10M-24-10 does not change legal protections for statistical information
 - See 44 U.S.C. § 3502 (CIPSEA 2018)
 - Existing processes for disclosure review, risk assessment, statistical analysis, quality assessment, and access control apply to AI use by the Federal Statistical System
 - Maintaining trust over protected and confidential data assets remains a key priority for my office

Statistical Activities and Artificial Intelligence

Collectively, statistical laws, policies, and regulations govern how the Federal Statistical System uses, innovates, and governs AI for statistical activities

CIPSEA Regulations

Trust

Presumption of Access

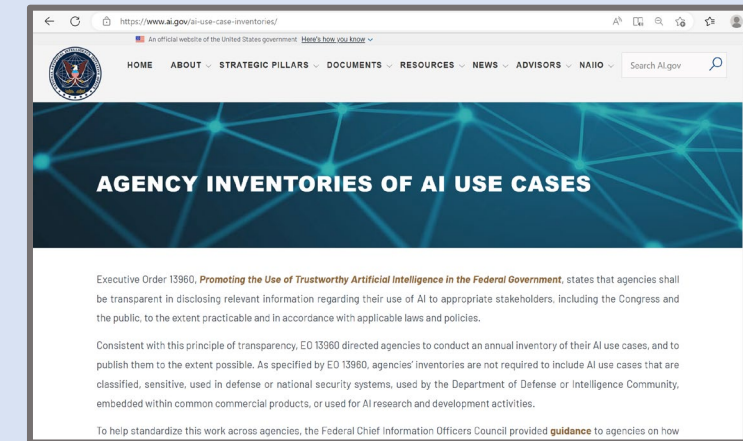

Expanding Secure Access

Other Statistical Responsibilities and Expectations under M-24-10

- Ensure that senior officials with statistical expertise are present on agency AI Governance Boards
 - OCSOTUS recommends Agency Statistical Officials or other expertise from the statistical system serve in this capacity
- AI-enabling roles for workforce development
- Feature statistical activities in Department's AI Use Case Inventory
 - The Federal Statistical System serves as a model for the use of AI for statistical activities
 - Examples of the forefront later today!

AI Day Agenda: Strong Federal Statistical System Examples

AI Day for Federal Statistics: CNSTAT Public Event May 2, 2024 National Academy of Sciences Building 2101 Constitution Avenue NW, Washington, DC

PROGRAM

Location: Fred Kavli Auditorium

10:00am–10:10am	Introductory Remarks Katharine Abraham, University of Maryland, College Park & CNSTAT Chair
10:10am–10:30am	Federal Statistics at the Forefront of Artificial Intelligence Karin Orvis, Chief Statistician of the United States, Office of Management and Budget
10:30am–12:00pm	Panel on Cross-Cutting Issues Related to AI Adoption in the Federal Statistics System <i>(speakers will have up to 20 minutes for their remarks)</i> Statistics at the AI Leadership Table Chris Marcum, Office of Management and Budget Moving AI Tools into Government Nadia Fawaz, White House Presidential Innovation Fellows Confidentiality Protection in AI Xiao-Li Ming, Harvard University Return on Investment (ROI) on AI Kent Cunningham, Microsoft Federal
12:00pm–1:30pm	Lunch break
1:30pm–2:30pm	The Future of AI in Federal Statistics Nancy Potok, NAPx Consulting LLC
2:30pm–2:45pm	Break (move to breakout rooms)

2:45pm–4:00pm

Topical Breakout Sessions *(all sessions concurrent, speakers will have up to 20 minutes for their remarks followed by audience Q&A and discussion)*

- 1) **Use of AI in the Survey Process**
 - Michael Link, Ipsos
 - Gizem Korkmaz, Westat
 - Moderator: Minsun Riddles, Westat
- 2) **Record Linkage and AI**
 - Carla Medalia, Census Bureau
 - Cordell Golden, National Center for Health Statistics
 - Moderator: Keenan Dworak-Fisher, Bureau of Labor Statistics
- 3) **Building the Future: Leveraging the National AI Research Resource and National Secure Data Service for AI Capabilities**
 - Katerina Antypas, National Science Foundation Office of Advanced Cyberinfrastructure
 - Lisa Mirel, National Center for Science and Engineering Statistics
 - Moderator: Travis Hoppe, Office of Science and Technology Policy
- 4) **Statistical Core of AI**
 - Hongtu Zhu, University of North Carolina at Chapel Hill
 - Tian Zheng, Columbia University
 - Moderator: Judy Wang, George Washington University
- 5) **Current Scope of AI Implementations**
 - Ken Haase, Census Bureau
 - David Oh, Bureau of Labor Statistics
 - Moderator: Bob Siviniski, Office of Management and Budget
- 6) **Quantifying Uncertainty Due to AI**
 - Lucas Janson, Harvard University
 - David Matteson, National Institute of Statistical Sciences and Cornell University
 - Moderator: Nicholas Rio, George Mason University
- 7) **Ethics in AI**
 - Rochelle Tractenberg, Georgetown University
 - Michael B. Hawes, Census Bureau
 - Moderator: Mark Prell, Economic Research Service
- 8) **AI and Blended Data**
 - H. V. Jagadish, University of Michigan
 - Elizabeth Stuart, Johns Hopkins University
 - Moderator: Brian Habing, National Institute of Statistical Sciences and University of South Carolina

Location: West Court and Great Hall

4:00pm–5:00pm

Poster Session and Reception

The U.S. Federal Statistical System and AI

- Broad expertise
- Principled and responsible
- Innovative use cases
- International efforts as well

Thank You and Happy AI Day!

FSS Website:

<https://www.statspolicy.gov/>

The screenshot shows the StatsPolicy.gov website. At the top, there is a navigation bar with the logo and the text "StatsPolicy.gov" and a search bar. Below the navigation bar, there is a main banner with a dark blue background and a line graph. The banner text reads: "Operating seamlessly, safely stewarding sensitive data resources" and "Fueling evidence building, civic engagement, and public and private sector decision-making". Below the banner, there is a white box with the text: "Welcome to StatsPolicy.gov, the home of the U.S. Federal statistical system. StatsPolicy.gov brings together important information about our interwoven Federal statistical system, including our members, priorities, and activities across the Federal Government." At the bottom, there are two columns of content. The left column has a heading "A Message from the Chief Statistician of the United States" and a quote from Dr. Karin Orvis. The right column has a heading "Community News and Upcoming Events" and a list of two bullet points regarding the 2024 schedule of release dates and a Federal Register notice of solicitation of comments.
