

State-of-the-Science & the Future of Cumulative Impact Assessment: Workshop in Louisiana November 20, 2024, 10 am–4:30 pm CT

Meeting Overview

This one-day workshop will center in-person conversations between local community members and the National Academies ad hoc committee on [State-of-the-Science and the Future of Cumulative Impact Assessment](#). Organized with input from the committee's [Community and Tribal Liaison Group](#), the workshop aims to elevate perspectives and local knowledge from community members in the River Parishes and Greater New Orleans area.

The meeting will be livestreamed via the event [webpage](#).

Public comments will be received in writing via the SLIDO widget on the event [webpage](#).
