

Post Emergency Transition to Recovery

**The National Academy of Sciences
Beebe Symposium**

Washington, DC

May 13, 2014

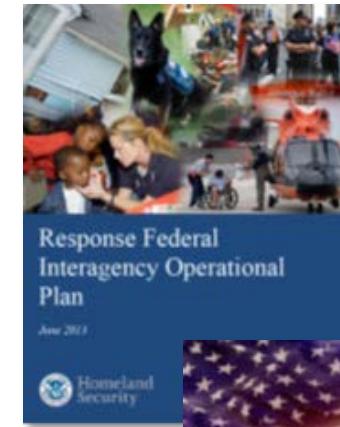

Gerilee W. Bennett
National Disaster Recovery Planning Division

FEMA

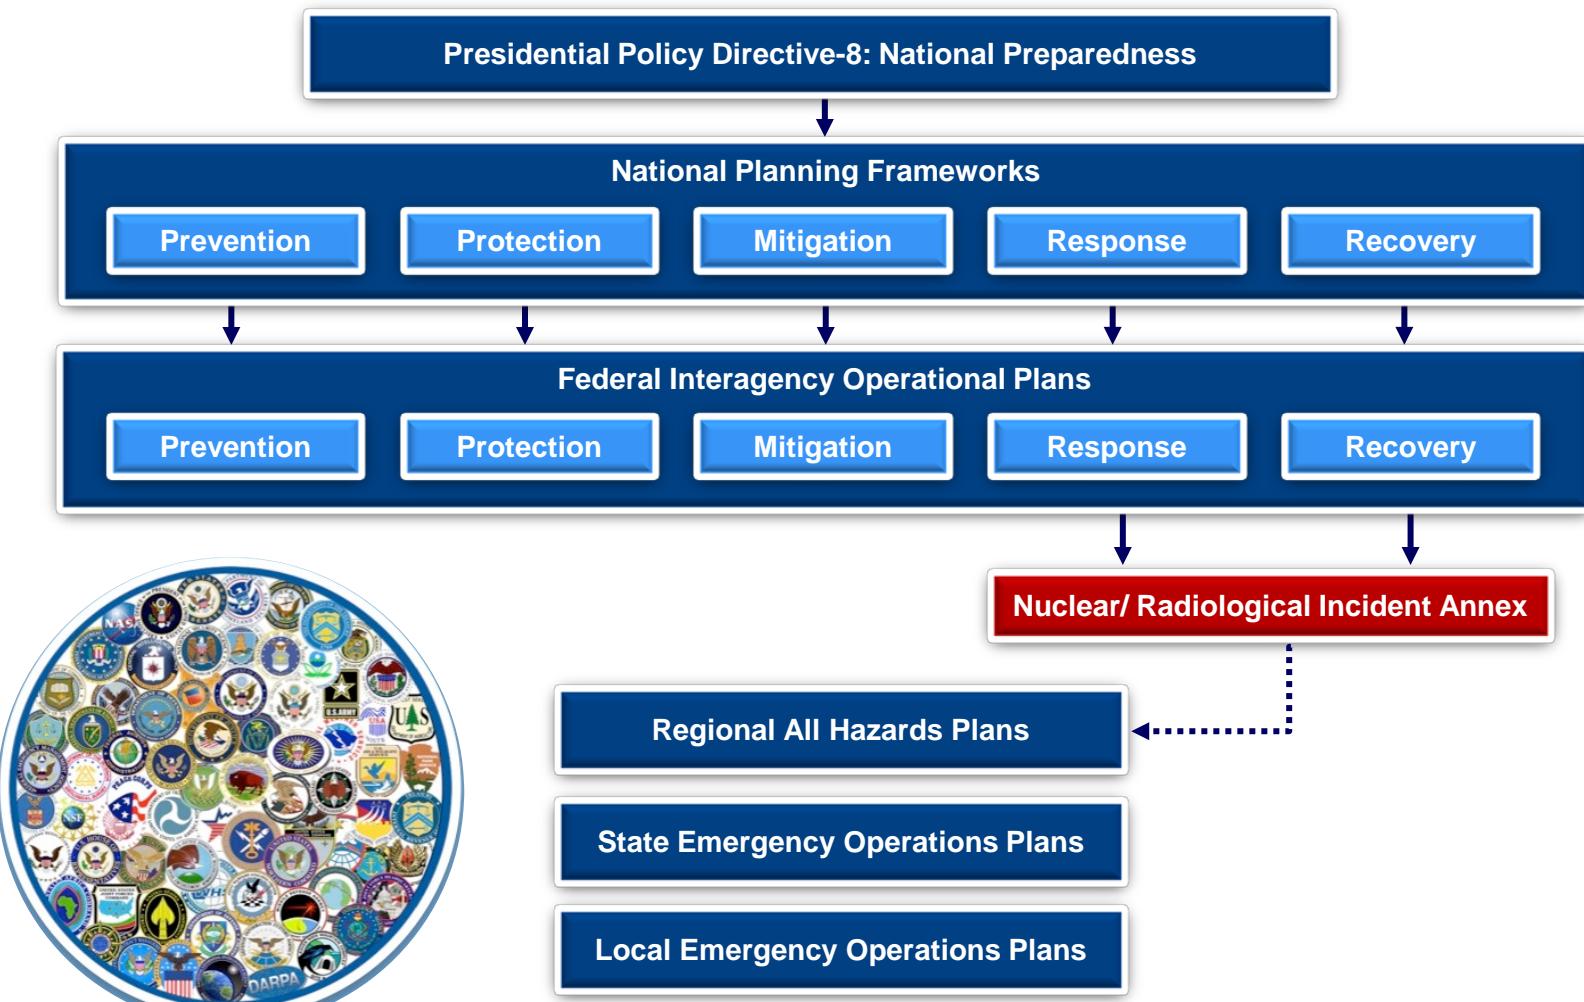

National Nuclear/Radiological Incident Annex (NRIA)

- NRIA originally drafted in 2004 as an incident annex to the National Response Plan (NRP)
- NRIA updated in 2008 as an incident annex to the National Response Framework (NRF)
- The National Disaster Recovery Framework (NDRF) was published in 2011 and the NRF was updated in 2013 under Presidential Policy Directive 8 (PPD-8)
- The updated NRIA will serve as an operational annex to the Response and Recovery Federal Interagency Operational Plans that support both the Response and Recovery Frameworks

FEMA

Relationship to Existing Plans

Challenges from Fukushima

- Contamination screening certificates, pets
- Uncertainty and long term relocations
- Support for host states and cities
- Public messaging for recovery
- Benefits coordination

Columbia Law School

Reuters

FEMA

Challenges from Fukushima

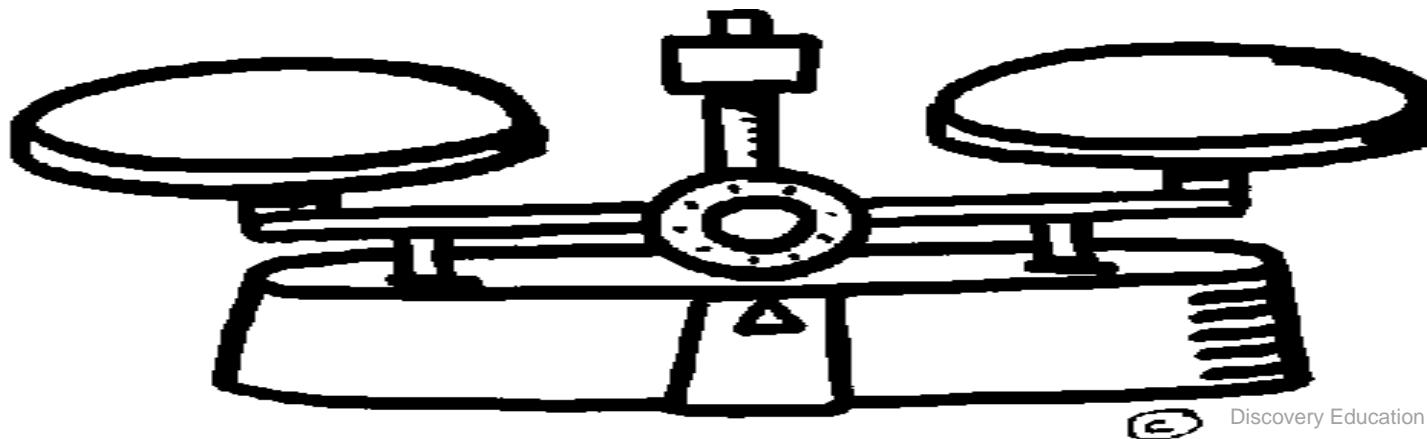

- Contaminated Debris Management
- Unusual, extensive security requirements
- Crowd-sourced radiation detection

FEMA

Recovery Balancing Act

- Individual self determination
- Local decisions
- Stakeholder involvement
- Retaining community cohesiveness
- Expectation for national plans
- Reducing uncertainty

Discovery Education

FEMA

Thank You

FEMA
