Statement of Task

Organize a workshop to discuss:

- Existing international **inclusion criteria** for such registries and possible alternative approaches, including a dose-tiered approach.
- Challenges associated with communicating inclusion criteria for a registry with the affected population.
- Considerations regarding **health screening** of the affected population, such as thyroid screening.
- **Operational considerations** for setting up and maintaining a registry, taking into account practicality and implementation issues.

Goals of the Workshop

- **Learn** from experiences from past radiological/nuclear and non-radiological/nuclear incidents.
- **Share views** on challenges and approaches
- **Record opinions** on next steps

Note: The workshop is webcast.
