Data and Management Strategies for Recreational Fisheries with Annual Catch Limits

Committee Meeting 5

November 4 & 6, 2020

VIRTUAL MEETING

Meeting objectives:

- Engage with MRIP Staff in an open discussion to identify remaining questions and information inquiries
- Focus on recreational fisheries data and management strategies in the New England Region.
- Hear from a variety of perspectives on what management techniques are employed in the New England Region and the extent to which data (types, quality, availability) have influenced the selection of those techniques.
- Learn about what supplemental or substitute data collection techniques, if any, are employed in the region and why.
