Data and Management Strategies for Recreational Fisheries with Annual Catch Limits

Committee Meeting 6

December 7-9, 2020

VIRTUAL MEETING

Meeting objectives:

- Receive presentations by MRIP Staff and consultants regarding new data standards and rare event species.
- Focus on recreational fisheries data and management strategies in the Pacific Region.
- Hear from a variety of perspectives on what management techniques are employed in the Pacific Region and the extent to which data collection (methods, data quality, data availability) have influenced the selection of those management techniques.
