

Longfin smelt trajectory

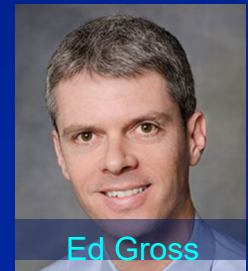

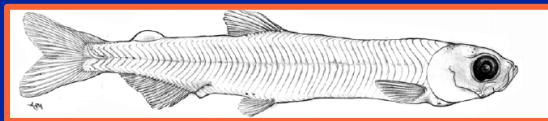

What happens to hatched longfin smelt?

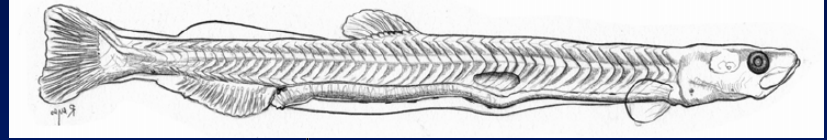

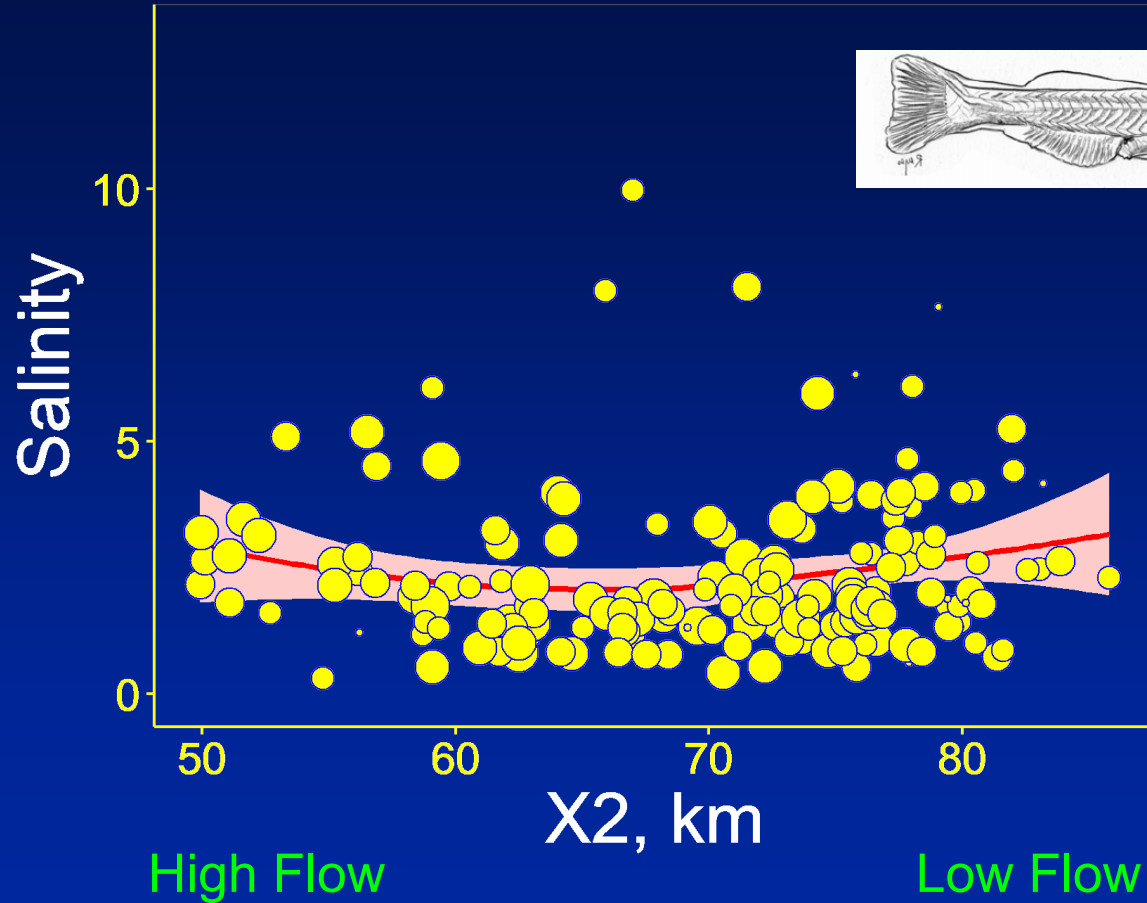

Rearing Area

Sampling?

Ed Gross

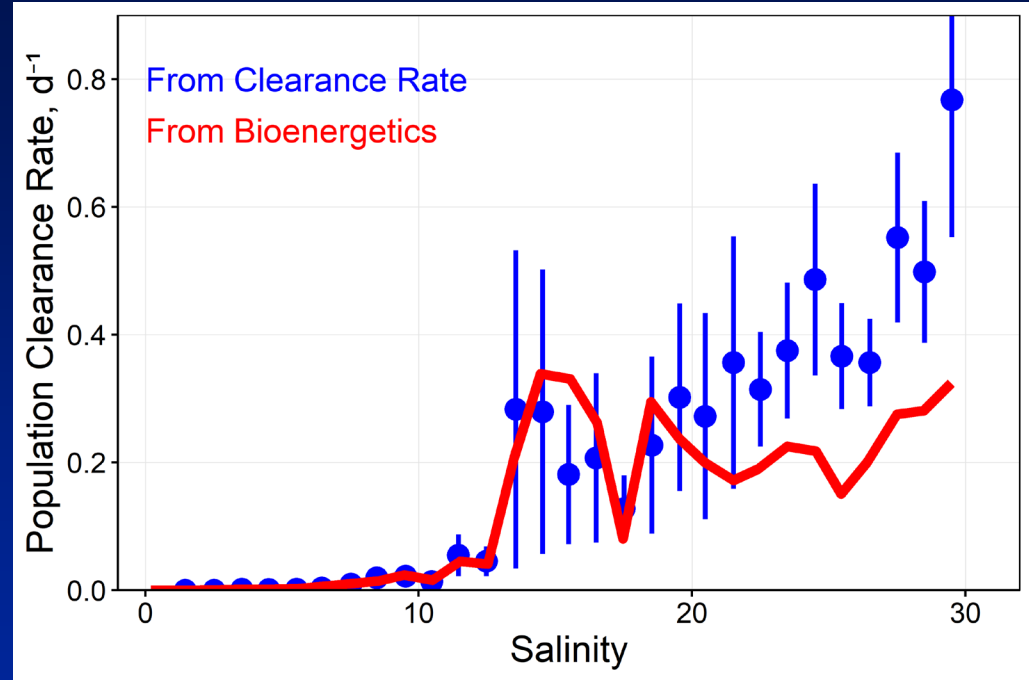

Position in salinity space

Predation risk

Population Clearance Rate
April – September
Very Approximate

James & Findlay 1989 MEPS
Kimmerer 2006 MEPS

Our terrestrial brains

??

We are at
 $38^{\circ}3' \text{ N}$, 122° W ,
middle of Suisun
Bay

I am at Salinity 5,
late on ebb tide,
near bottom, dark,
no predators, not
much food
