Aeronautics Research and Technology Roundtable
August 19, 2020
500 Fifth Street, NW, Washington, DC 20001

Wednesday, August 19, 2020

Zoom Remote Access Information – ARTR Meeting 2020 - Open

1 301 715 8592 or +1 470 250 9358

Link: <https://nasem.zoom.us/j/91191282439>

Meeting ID: 911 9128 2439

OPEN SESSION

VIRTUAL MEETING

1:00 p.m.	Meeting Convenes, Welcome and Introductions	John Langford, Chair Roundtable Participants Bob Pearce, ARMD Associate Administrator, NASA
1:15 p.m.	Aircraft Cabin Flow Modeling and COVID Dispersion: Workshop Status	John Cavolowsky, NASA
2:00 p.m.	Roundtable Member Comments	John Langford, Chair Roundtable Participants
2:15 p.m.	Roundtable Member Comments • Discuss Request for September Meeting 1/2/ • Closing Remarks	John Langford, Chair Roundtable Participants
2:30 p.m.	<i>Meeting Adjourns</i>	

Notes:

- 1/ Members' thoughts on the International Aspects of Advanced Air Mobility and Impact on US
- 2/ Members' thoughts on the US Industrial Base and Lessons Learned

Last updated: August 12, 3:00 p.m.

Aeronautics Research and Technology Roundtable Statement of Task

The Aeronautics Research and Technology Roundtable (ARTR) convenes senior-most representatives from industry, universities and NASA to define and explore critical issues related to NASA's aeronautics research agenda that are of shared interest; to frame systems-level research issues; and to explore options for public-private partnerships that could support rapid, high-confidence knowledge transfer. This forum will be designed to facilitate candid dialogue among participants, to foster greater partnership among the NASA-related aeronautics community, and, where appropriate, carry awareness of consequences to the wider public.

The following information is provided for any members of the general public who may be in attendance:

This meeting is being held to facilitate dialogue among the participants. This roundtable will examine the information and material obtained during this, and other meetings, in an effort to inform its work. Although opinions may be stated and lively discussion may ensue, no conclusions are being drawn at this time and no recommendations will be made by the roundtable. Therefore, observers should draw conclusions about the roundtable's work based on today's discussions.

Furthermore, individual roundtable members often engage in discussion and questioning for the specific purpose of probing an issue and sharpening an argument. The comments of any given member may not necessarily reflect the position he or she may actually hold on the subject under discussion.
