

Ideas for the Future of Materials Research - Event Application

In the form below we invite you to describe your idea for an emerging topical workshop in condensed matter and materials research. We will select the most promising ideas to be presented and discussed at a virtual session hosted with the CMMRC on April 7th. The form asks for a quad chart (template and instructions below), a short video (e.g., a talk recorded using Zoom), references, and also any additional information that you may wish to provide. Each individual item is optional, but it is important that you provide enough information that we can get a good preview of your idea and proposed talk.

Important submission notes:

- Deadline to submit your idea is 11:59 pm ET, Friday, March 4.
- Selectees will be notified starting Thursday, March 10.
- Only one submission per person, please.

Please contact Amisha Jinandra at Ajinandra@nas.edu for any questions or concerns regarding this form. Note that your email is connected to this application and will allow you to edit and complete your submission upon returning later. If you do not have a google enabled email and have trouble accessing this form, please contact us by email to receive an alternative offline version.

*** Required**

Your idea

Please provide the following information on the quad chart showing your succinct answers to these questions

1. What emergent research topic should the CMMRC consider for a future workshop?
2. Why the subject is important,
3. What important questions are being addressed,
4. Why a workshop now would have a strong impact.

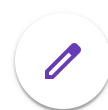

Submissions will be considered based on novelty of concept and clarity of presentation.

Quad Chart summary and example

You can access an example quad chart or download the blank quad chart at the link below:

<https://drive.google.com/drive/folders/1ZaO8NzC5ucaEhYaeYfYuwHGe6HwiMOW-?usp=sharing>

The first page shows an example of a filled-out quad sheet, taken from a different context. The second sheet is a template for you to complete. The four quadrants correspond to the four questions above. Fill in your name and title on the top line. then use the space in each quadrant to answer each of the four questions. Use 2-3 literature references numbered [1], [2], [3] ... to document important, current work on the topic. Supply the citations to these separately as requested below.
