5G: Fifth Generation Wireless Communications

Save the date for a half-day colloquium on November 13, 2018

DATE: November 13, 2018 from 8am-12:30pm

LOCATION: National Academy of Sciences, Auditorium, 2101 Constitution Ave. NW, Washington, D.C.

On November 13, 2018 the National Academies of Sciences, Engineering, and Medicine will conduct a colloquium to explore the architectures and technologies that will form the basis of the upcoming 5G system and how they will enable a host of new applications for the user. The colloquium program will also include an assessment of how these applications will affect the U.S. and the world. This unclassified event will feature individual presentations followed by a panel discussion.

This event is part of an ongoing colloquium series organized by the Intelligence Community Studies Board and sponsored by the Office of the Director of National Intelligence. Learn more about the ICSB at nas.edu/icsb.

REGISTER: Register to attend at 5Gtechnology.eventbrite.com. If you have questions about the event, please email us at icsb@nas.edu.
