Guiding Questions

- *What is the pattern of [trend] in the Gulf presently and looking into the future?*
- *How does [trend] vary spatially across the Gulf? Are some parts of the Gulf experiencing more changes than others? In what way?*
- *How confident are you in your current assessment and future predictions? What is the spatial extent of the available data? What uncertainties exist? What data and/or other factors are you missing (spatially or temporally) that would make a difference in your ability to predict?*
- *Hurdles and challenges?*

1:35 PM Panelist Discussion with Committee

2:15 PM *Adjourn Open Session*
