

Bridging the education-to-practice divide with technology

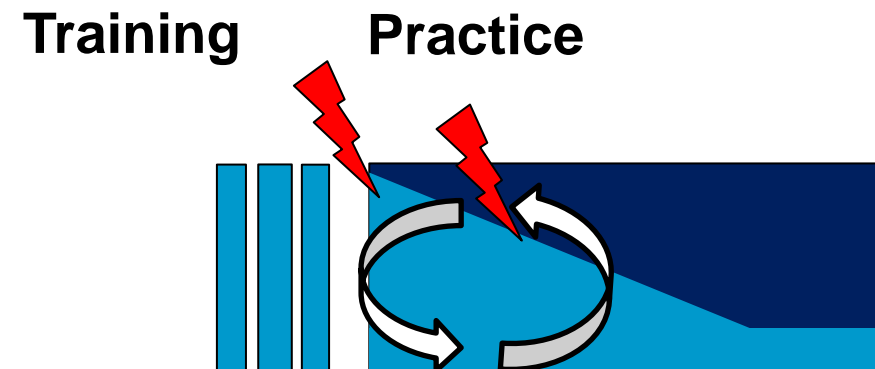

Education-to-practice divide: Two perspectives

(1) School-to-work

(2) CPD: Training-to-practice

How does the education-to-practice gap manifest in your discipline/profession, and what are possible ways/approaches in which technology can help to bridge this divide?

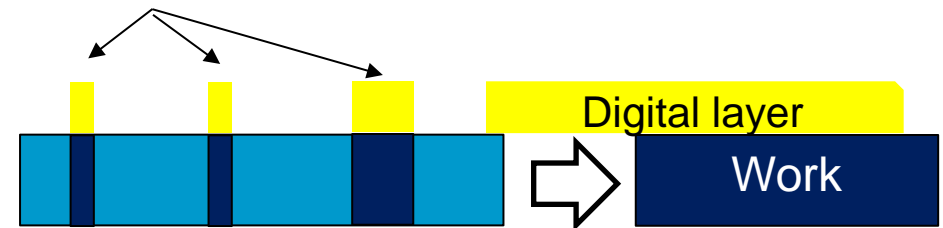

Each table: One question and one comment: (5min)

- 1. One (follow-up) question to Paul Worley**
- 2. One comment: (How) could the approach presented by Paul also be used in your professions/disciplines?**

Technology – a connecting layer

School-to-work
