

Clinical Follow-Up and Care for Those Impacted by the JP-5 Releases at Red Hill:
Public Health and Health Care Virtual Listening Session with the Impacted Community – April 8,
2025 – Public Agenda
All Times Hawai'i Standard Time

This virtual listening session provides an opportunity for the National Academies Committee on the Clinical Follow-up and Care for Those Impacted by the JP-5 Releases at Red Hill to hear directly from those affected. Individuals who were exposed, as well as those involved in the public health response and clinical care, are invited to share their perspectives and experiences to help inform the committee's work. We ask that participants come prepared to share insights related to the discussion questions outlined in the agenda.

- 4:30 PM HST **Welcome**
Grace Lee, Committee Chair
- 4:40 **Introduction to Session**
Marcus K. Iwane, Committee Member
- 4:50 **Public Health Response Discussion**
Moderator: Theresa Cullen, Committee Member

Q1. Can you tell us a bit about your experiences when the November 2021 release first occurred?
We'd like to hear from each of you things like:

- a. How did you learn about the water contamination?
- b. When were you first informed about measures to reduce your exposure and protect your health? Or, when did you hear of the public health advisories?
- c. What organization(s) did you hear from?
- d. Did you trust the organizations that were providing the public health advisories? Why or why not?

Q2. Let's discuss the response as the situation unfolded. What sources of information did you rely on to understand how the release of JP-5 would affect you, your family, and your pets?

- e. Did you find the answers you needed? Why or why not?
- f. Are there any gaps in information that persist?

nationalacademies.org/HMD

It is essential to the National Academies mission of providing evidence-based advice that participants in any of our meetings or events avoid political or partisan statements or commentary and maintain a culture of mutual respect. The statements and presentations during our meetings or events are solely those of the individual participants and do not necessarily represent the views of other participants or the National Academy of Sciences, which is a non-partisan, tax exempt organization that includes under its Charter the National Academy of Engineering and National Academy of Medicine, and that operates the National Research Council.

Q3. What do you wish the public health experts in your community had done differently?

Q4. What do you think the public health community could do to improve recovery among the Red Hill impacted communities?

Q5. Is there anything else related to the public health response that you'd like the committee to be aware of?

5:25 **Discussion on Experiences with Receiving or Giving Health Care Following the JP-5 Releases at Red Hill**
 Marcus K. Iwane, Committee Member

Q1. If you or your family members sought health care following the JP-5 releases:

- a. Were you able to access care following the event?
- b. Where did you seek health care following your exposure?
- c. What type of symptoms did you discuss with clinical providers immediately after the event?
- d. What ongoing symptoms have you discussed with clinical providers?

Q2. Now, we'd like to hear from all of you about the health effects you're witnessing in the communities impacted by the JP-5 releases at Red Hill?

- e. What health effects do you believe are the most common in the Red Hill exposed community?
- f. What long-term health impacts (whether present now or worried about for the future) are you concerned about?

Q3. If you provided care to the impacted population following the JP-5 releases, we'd like to hear about your experience:

- a. Were you able to find the necessary information to counsel Red Hill exposed patients? What information sources did you rely on?
- b. What patient needs were the most common immediately after the exposure?
- c. What health care needs and questions persist among the Red Hill Patients?

Q4. Finally, what would you like the committee to know as it develops recommendations for clinical follow-up for those exposed at Red Hill?

5:55 **Wrap-Up and Next Steps**
 Grace Lee, Committee Chair

6:00pm **Meeting Adjourns**
