2023 - 2025 ALCOHOL INTAKE & HEALTH

Robert M. Vincent, MS.Ed.
Associate Administrator for Alcohol Prevention & Treatment Policy
Center for Substance Abuse Prevention, Office of the Director

CONCEPTION OF THE STOP ACT

2006

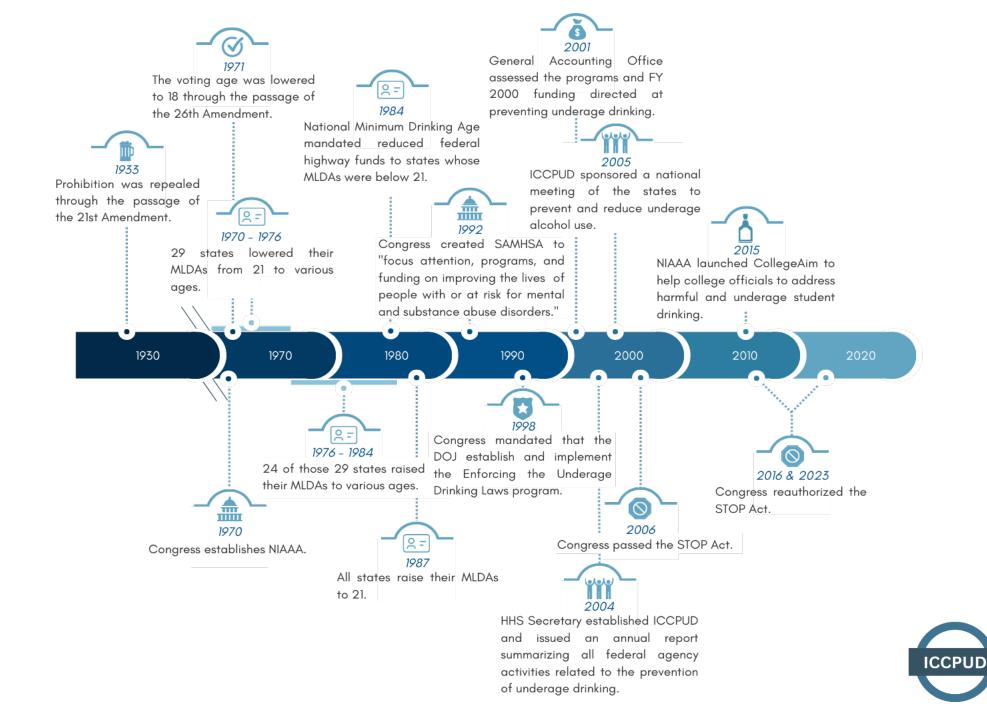

Congress enacted the Sober Truth on Preventing Underage Drinking (STOP) Act (Public Law 109-422).

STOP Act established ICCPUD

The Interagency Coordinating Committee on the Prevention

of Underage Drinking

ICCPUD VISION

Provide *national leadership* in federal policy and programming to support state and community activities that prevent and reduce underage drinking

ICCPUD MISSION

Facilitate *collaboration* among the federal ICCPUD member agencies, state and local governments, private and public national organizations, and agencies with responsibility for the health, safety, and wellbeing of America's children and youth

Provide *resources and information* on underage drinking prevention, intervention, treatment, enforcement, and research

US Department of Health & Human Services

Provides effective health and human services and fosters sound, sustained advances in the sciences underlying medicine, public health, and social services.

Administration for Children & Families

Initiates programs that promote the economic and social well-being of children and families.

Centers for Disease Control & Prevention

Protects America from health, safety, and security threats, both foreign and in the U.S.

Indian Health Service

Provides federal health services to American Indians and Alaska Natives.

National Institute on Alcohol Abuse and Alcoholism

Improves diagnosis, prevention, and treatment of alcohol-related problems.

Agency for Healthcare

National Institute on Drug Abuse

Advances science on the causes and consequences of drug use and addiction and applies that knowledge to improve individual and public health.

Research and Quality

Enhance the quality,

appropriateness, and

effectiveness of health care

services and access to care.

US Department of Defense

Prevents and reduces alcohol consumption by underage military personnel.

US Department of Justice

Supports states with implementing coordinated prevention and intervention programs.

Office of Population Affairs

ICCPUD

Promotes health across the reproductive lifespan through evidence-based adolescent health and family planning services.

Office of Assistant Secretary for Planning and Evaluation

Principal advisory group to the United States Secretary of the Department of Health and Human Services on policy development.

Office of the Surgeon General

Provides Americans with the best scientific information available on how to improve their health and reduce the risk of illness and injury.

Substance Abuse and Mental Health Services Administration

Leads the nation in providing prevention, treatment, and recovery support services to communities.

Federal Trade Commission

Monitors alcohol advertising for deceptive practices, brings law enforcement actions as needed, and promotes alcohol industry compliance with selfregulatory commitments.

US Department of Education

Provides financial assistance for activities that promote student health in elementary and secondary schools and higher education.

US Department of Transportation

Implements enforcement programs to reduce traffic crashes, including underage drinking and driving crashes.

US Department of Treasury

Prevents unfair and unlawful market activity for alcohol and tobacco products.

Office of National Drug Control Policy

Leads and coordinates the development, implementation, and assessment of U.S. drug policy.

US Department of Homeland Security

Protects the public, the environment, and U.S. economic interests.

National Cancer Institute

Leads, conducts, and supports cancer research across the nation to advance scientific knowledge and help all people live longer, healthier lives

ALCOHOL INTAKE & HEALTH

OBJECTIVE: Estimate the lifetime risk of alcohol-related mortality and morbidity among different races and sexes in the United States based on a given average alcohol consumption in grams per day.

Study 2: Daily Study 1: Weekly thresholds to minimize thresholds to minimize the short-term risk of long-term and shortterm risks of morbidity injury or acute illness due to per occasion and mortality drinking Study 4: Situations and Study 3: Alcohol use individual among vulnerable circumstances that are populations hazardous

The Interagency Coordinating
Committee for the Prevention of
Underage Drinking

Technical Review Subcommittee for Alcohol Intake & Health

- Provide technical leadership and guidance to the Scientific Review Panel
- Assess and review scientific evidence from available resources to inform the federally coordinated approach to prevent underage drinking
- Make recommendations on alcohol intake and health effects among adults for inclusion in the Report to Congress

Scientific Review Panel for Alcohol Intake & Health

- Assess scientific evidence on the relationship between consumption of alcohol and health outcomes
- Summarize the scientific evidence between alcohol intake and health effects among adults and provide conclusions

2025 Report to Congress on Preventing and Reducing Underage Drinking

Publish alcohol intake and health findings and recommendations

The U.S. Department of Agriculture

Provide guidance and advice on alcohol intake and health across the federal government

ALCOHOL INTAKE & HEALTH

In order to generate evidence on weekly drinking thresholds to minimize health risks, the AIH Study will use:

- Lifetime risk modelling to estimate the lifetime risk of death and disability for different levels of average alcohol consumption.
- Model cause-specific absolute risk curves based on disease-, injury-, and conditionspecific relative risk curves
- Cohort studies from conditions that are thought to be causally related to alcohol use (e.g., liver cirrhosis and cancer).

SAMHSA WILL ISSUE TWO REQUESTS FOR INFORMATION/PUBLIC COMMENT

To gather public feedback from interested parties on the **methodology** proposed for the Alcohol Intake and Health study. To be issued after the methodology is finalized.

To gather public feedback from interested parties on the results of the Alcohol Intake and Health study. To be issued after the results are finalized.
