RE Dr Dzau's comment re "burnout"

Have the committee members seen this video? It was posted by Dr. Zubin Damania 2 weeks ago and it has over 9 MILLION views.

I believe this is what a great many nurses, physicians and other direct caregivers are feeling. It is why they leave their professions - increasingly by committing suicide.

To call this "burnout" is to trivialize the depth and seriousness of the problems at the bedside.
