Overview

N-PeRC is a trans-NIH initiative that began in June 2018 to capitalize on pediatric research expertise and resources across NIH's 27 institutes and centers through increased collaboration. The *Eunice Kennedy Shriver* National Institute of Child Health and Human Development (NICHD) is the lead NIH institute for the consortium.

- Nearly all of the NIH ICs fund some aspects of child health research

NIH support for pediatric research currently totals more than \$4 billion. N-PeRC aims to harmonize these activities across institutes, explore gaps in the overall pediatric research portfolio, and share best practices to advance science. The consortium meets several times a year to discuss scientific opportunities and potential new areas of collaboration, including efforts to enhance research training for the next generation of pediatricians.

Expanding the Pediatric Workforce: Training Opportunities

Est. Total Awarded: \$280,003,407
