

NIH...

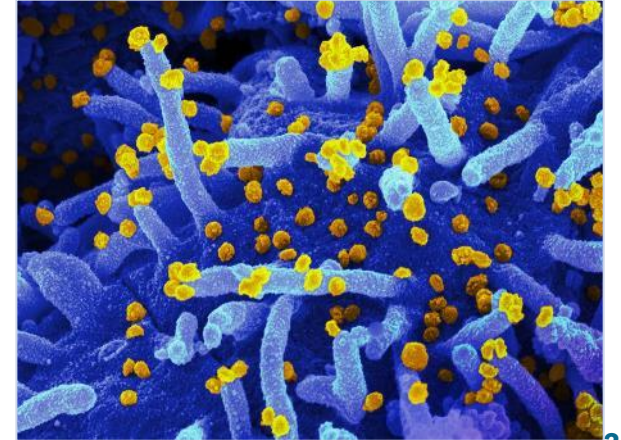

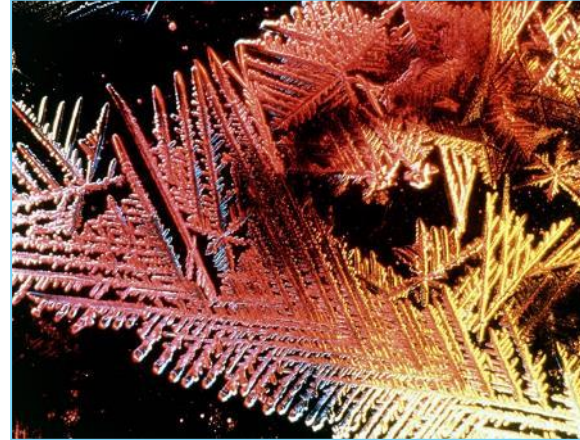

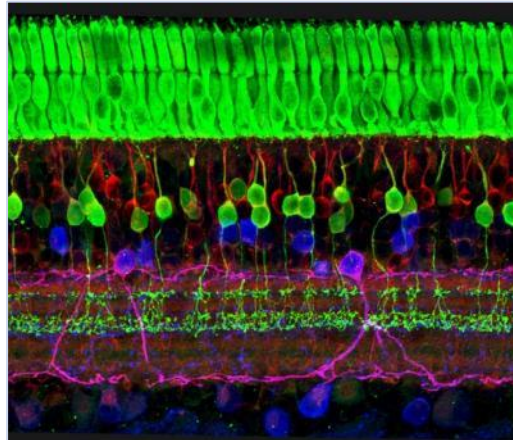

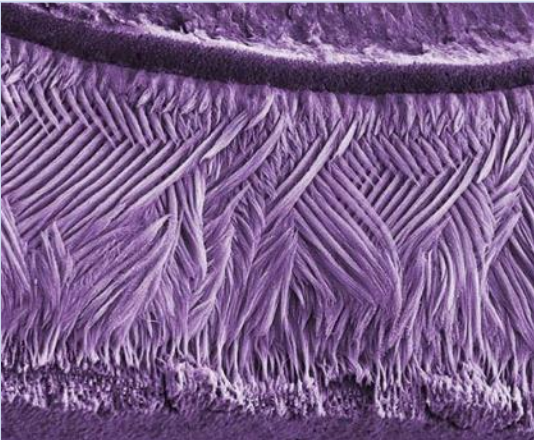

Turning Discovery Into Health

FNIH...

Building Bridges to Breakthroughs

FNIH Ambition:
Accelerate and amplify
the value and impact of
NIH and its scientific
collaboration on
people's health and
health equity

***BUILDING BRIDGES TO
BREAKTHROUGHS***

- ☐ Building Collaborative Science
- ☐ Supporting Scientists
- ☐ Earning Trust in Science

Public-Private-Patient Partnerships: tackling the most pressing health challenges together

NIH & OTHER GOVERNMENT AGENCIES

We support the mission of the nation's premier biomedical research agency, driving discoveries that improve health and save peoples' lives

LIFE SCIENCES COMPANIES & ACADEMIA

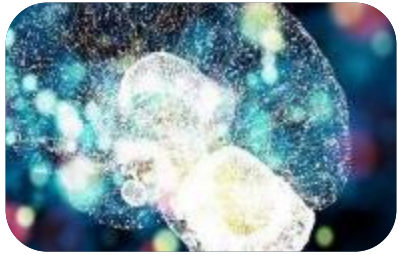

We collaborate with leading R&D organizations to advance research that will lead to new therapies, diagnostics, and potential cures

FOUNDATIONS & PATIENT ORGANIZATIONS

We work with foundations to address urgent issues in global health and accelerate biomedical innovation across a range of diseases

We accelerate prevention, new therapies, diagnostics & potential cures

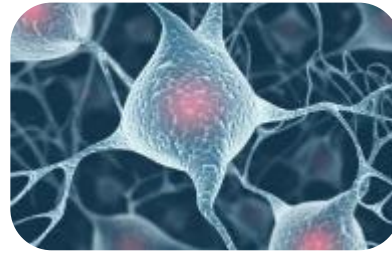

ACCELERATING MEDICINES PARTNERSHIP (AMP)

Drug candidates & platforms for serious diseases, including Alzheimer's, metabolic disorders, heart failure

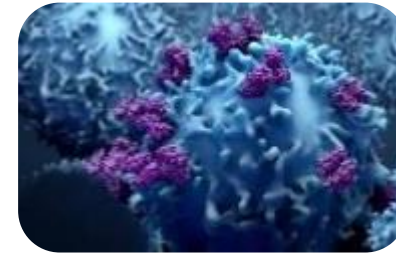

AMP BESPOKE GENE THERAPY CONSORTIUM (BGTC)

Faster development & delivery of gene therapies for rare diseases

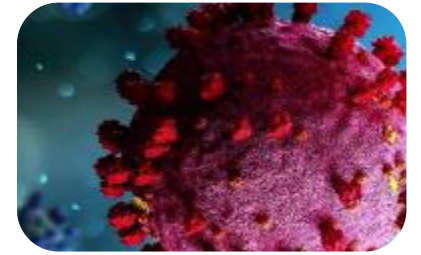

BIOMARKERS CONSORTIUM

Uncovering novel biomarkers that unlock new development & regulatory pathways

PARTNERSHIP FOR ACCELERATING CANCER THERAPIES (PACT)

Robust biomarkers to advance new therapies that harness the immune system to attack cancer

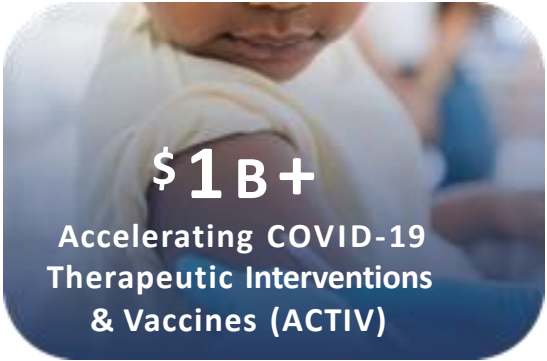

ACCELERATING COVID-19 THERAPEUTIC INTERVENTIONS & VACCINES (ACTIV)

Accelerated clinical development of therapeutics and vaccines to address a global pandemic

Collaborative Science: Major Public Private Patient Partnerships and Platforms

Public & private funding

\$1B+

Accelerating COVID-19
Therapeutic Interventions
& Vaccines (ACTIV)

\$783M

Accelerating
Medicines
Partnership

\$220M

Partnership for
Accelerating Cancer
Therapies

\$206M

Alzheimer's Disease
Neuroimaging Initiative
(ADNI)

\$23M

Gene
Convene

\$201M

Grand Challenges in
Global Health (GCGH)

\$163M

The Biomarkers
Consortium

Building Bridges to Success

GOAL

**LISTEN &
ALIGN**

Identify and
convene
stakeholders

DESIGN

Project
planning
and scoping

ACTIVATE

Engage
partners,
aggregate
resources

MANAGE

Governance,
project
management
and financial
stewardship

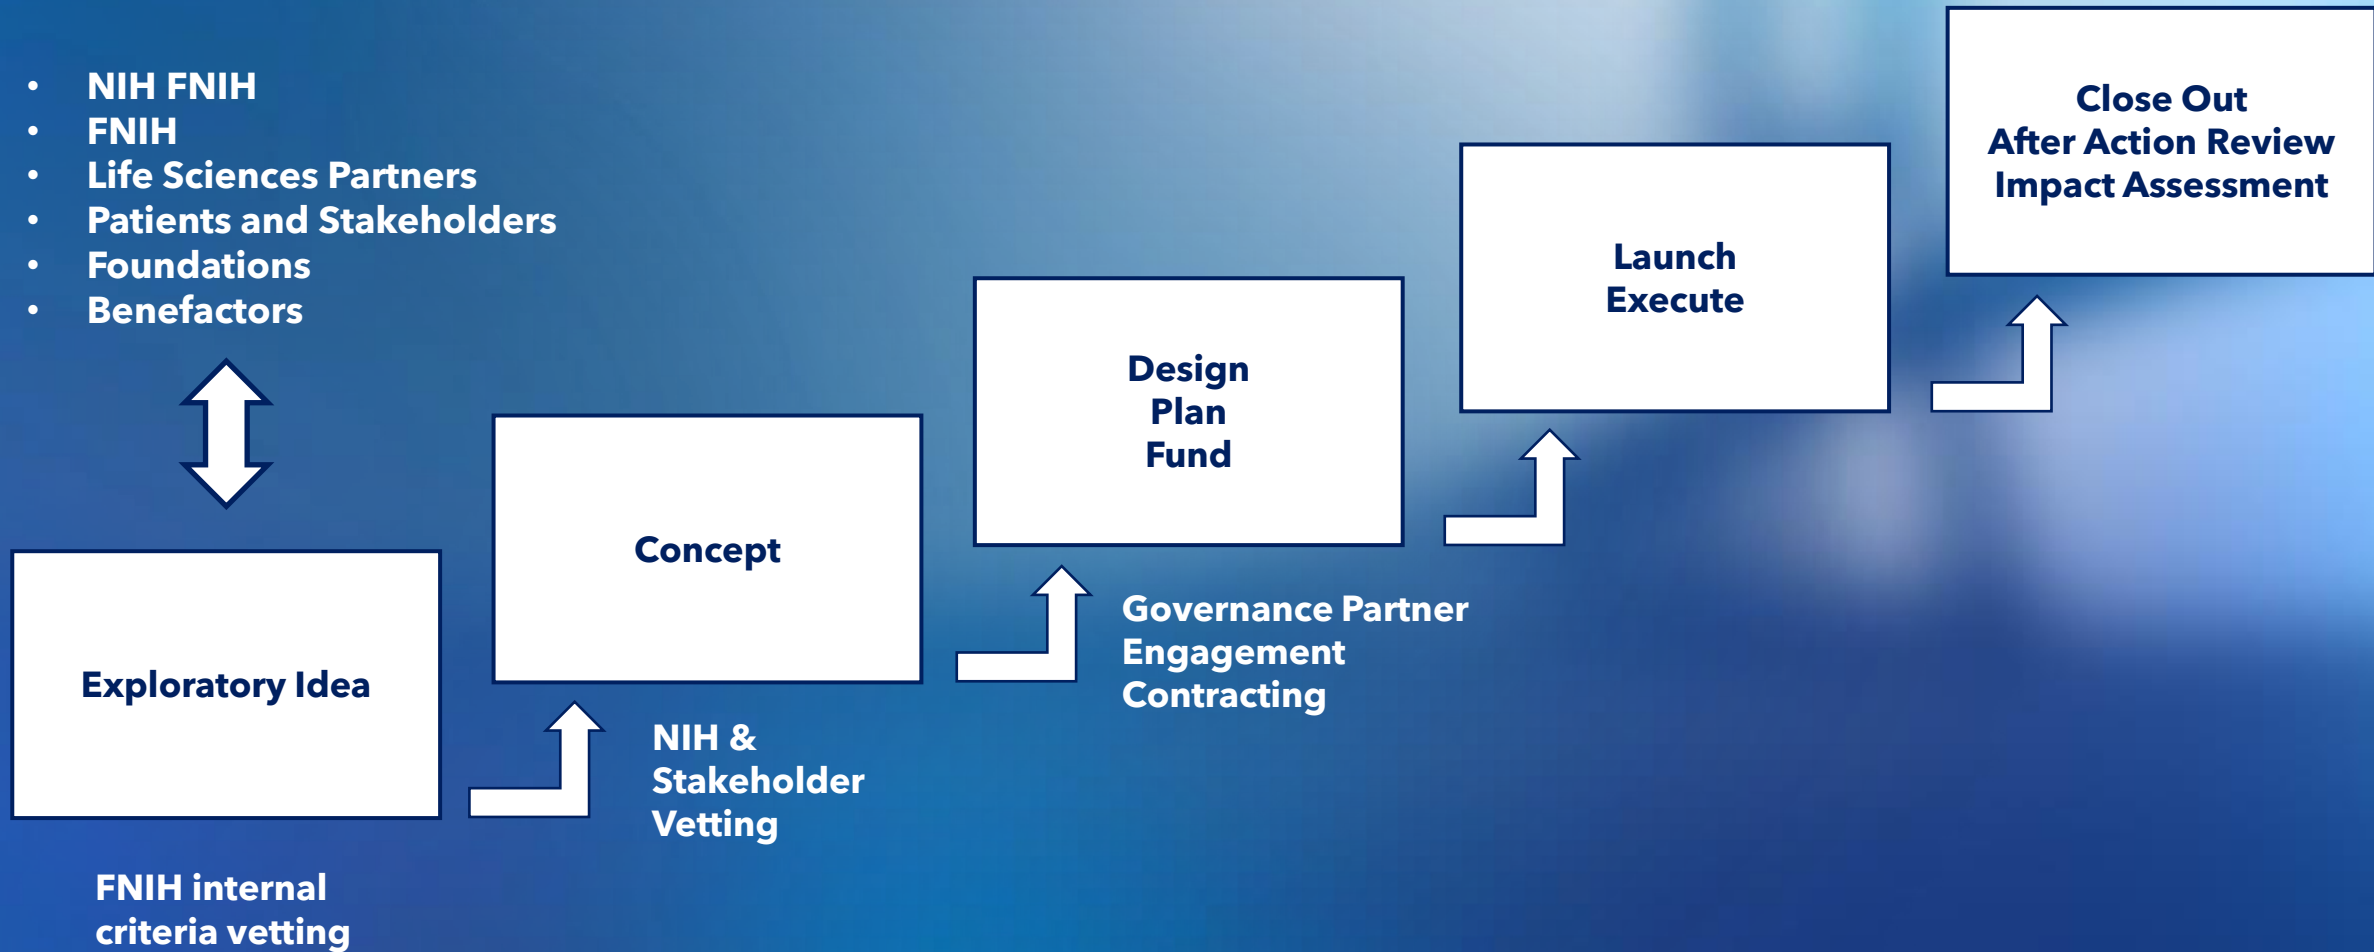

MEASURE

Monitor,
course correct,
report

IMPACT

FNIH Portfolio Pipeline: Focus and Discipline

- NIH FNIH
- FNIH
- Life Sciences Partners
- Patients and Stakeholders
- Foundations
- Benefactors

Keys to Success

PROVEN TRACK RECORD OF SUCCESS

We have a
25+ year history of
delivering results
across multiple
therapeutic areas

SPEED AND EFFICIENCY

We prioritize and
operate at
scale to leverage
resources across
our programs and
activities

TRUSTED RELATIONSHIPS

We invest in
relationships with
NIH, FDA, WHO, and
all our partners

BROAD, FLEXIBLE SCOPE

We tackle complex
problems in all
therapeutic areas

NEUTRAL CONVENER

We partner
with no other agenda
than to improve
health and health
equity

THANK YOU!
