Bernard Lo, M.D.

The Greenwall Foundation

Conflicts of interest

- No financial conflicts
- Advisory Board of Vivli, DataVant

Key 2015 IOM recommendations

1. Culture of data sharing

- Promotions, grants

2. Share different types of clinical trial data at different times

3. Operational strategies

- Access transparent
- Independent review of requests

Key 2015 IOM recommendations

4. Ongoing process to address

- Infrastructure, technology, common data elements, financial sustainability, workforce

Who are we: Data generators vs. data users?

- Spirited disagreement
- Ultimate goal to benefit patients
- Can policies be evidence-driven?

What metrics for benefits, value?

- Generate important new knowledge
- Improved health and clinical outcomes
- Do some trials offer greater benefit/value for data sharing?
 - Should all trials have equal priority for sharing?
- Opportunity costs
