

# Children and Youth in Disaster

American Red Cross: serving our children across all phases of disasters

# Preparedness

Prepare with Pedro

The PillowCase Project

Sound the Alarm

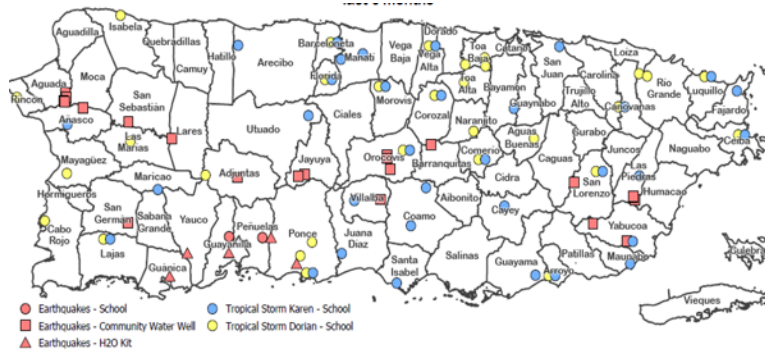

Response

# Long Term Recovery

**Investment against Future Risk:**  
150+ schools and community wells  
with solar back-up and education in  
Puerto Rico.

**Hope Worldwide offered 8-week  
therapeutic performing arts  
programs for children.**

**California CareForce is a group of  
volunteer medical professionals  
that provides free medical, dental  
and vision care to those in need at  
temporary clinics in the wildfire  
affected areas.**

Care must be designed and delivered that is responsive to **individual needs and values**. This includes both cultural competence and the cultural humility to provide authority and self-determination for those we serve.
