

Envisioning a Transformed Clinical Trials Enterprise for 2030 A Virtual Workshop

February 9 Breakout Discussion Guide – Session 2

Overview

On January 26, February 9, March 24, and May 11, 2021 the National Academies Forum on Drug Discovery, Development, and Translation will host a 4-part virtual workshop on *Envisioning a Transformed Clinical Trials Enterprise for 2030*. Workshop participants will consider lessons learned from progress and setbacks over the past 10 years, and, looking forward, discuss goals and key priorities for advancing a clinical trials enterprise that is more efficient, effective, person-centered, inclusive, and integrated into the health delivery system of 2030. The workshop planning committee has identified three topic-specific priorities for framing the workshop discussions: 1) Enhancing Outcomes in a More Person-Centered and Inclusive Clinical Trials Enterprise; 2) Building a More Resilient, Sustainable, and Transparent Clinical Trials Enterprise; and 3) Ensuring More Appropriate Use of Technologies to Optimize the Clinical Trials Enterprise.

Breakout group participants will discuss each of the topic-specific priorities listed above.

Discussion Questions for Session 1 of Enhancing Outcomes in a More Person-Centered and Inclusive Clinical Trials Enterprise

1. What are 1-2 long-term, tangible and measurable goals to ensure a more person-centered and inclusive clinical trials enterprise that should be met within the next 10 years – by 2030?

Goals to consider:

- *Build a sustained clinical trial network that invests in communities over the long-term and maintains trust through ongoing, longitudinal relationships*
- *Reexamine the role of contract research organizations to better foster longitudinal relationships with communities*
- *Other long-term goals to ensure a more person-centered and inclusive clinical trials enterprise?*

2. What technologies, tools, or techniques could be transformational to improving inclusiveness and equity in the clinical trials enterprise over the next 10 years?
