

Roundtable on Translating Genomic-Based Research for Health

Workshop on Systems for Research and Evaluation for
Translating Genome-Based Discoveries for Health

Beckman Center
100 Academy Drive
Irvine, CA 92612

February 12-13, 2009
Agenda

Thursday, February 12

- | | |
|-----------|------------------------------------------------------------------------------------------------------------------------------------|
| 7:30 | First Bus Leaves hotel for Beckman Center (We have a 24 passenger bus so we will need to go in 2 groups to the meeting center.) |
| 8:00 | Final Bus Leaves hotel for Beckman Center |
| 7:45-8:45 | Breakfast for Roundtable Members and Speakers. Please note, breakfast will be served buffet style in the Beckman Center cafeteria. |

Auditorium	WORKSHOP BEGINS
-------------------	------------------------

- | | |
|-----------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 9:00-9:15 | <i>Welcome and Presentation of Workshop Objectives</i>
Wylie Burke, Chair
University of Washington |
| 9:15-9:35 | <i>Generating Evidence for Decision Making: Does the Type of Decision Being Made Influence the Evidence Needed?</i>
Steven Teutsch
Los Angeles Public Health Department |

9:35-11:45	Panel: Creating Evidence Systems
-------------------	-----------------------------------------

Each of the following speakers will address the following questions:

- What are your goals for genetic research
- How do you decide what studies to pursue
- What barriers did you overcome or still face?
- What do you see as the biggest research challenges going forward?

- | | |
|-----------|------------------------------------------------------------------------------------------------|
| 9:35-9:50 | <i>HMO Research Network</i>
Robert Davis
Director of Research, Kaiser Permanente Georgia |
|-----------|------------------------------------------------------------------------------------------------|

9:50-10:05 VA
Sumitra Muralidhar, Ph.D.
Office of Research and Development

10:05-10:20 *InterMountain Health*
Marc S. Williams
Director, Clinical Genetics Institute

10:20-10:40	BREAK
--------------------	--------------

10:40-11:45 Discussion

11:45-1:00	LUNCH
-------------------	--------------

1:00-2:45	Panel: Current Practices in Moving From Evidence to Decision
------------------	---------------------------------------------------------------------

Each of the speakers will address the following questions:

- What uses of genetics does your program consider?
- What evidence do you need?
- What kind of process is used to make the decisions?
- What infrastructure is needed to support the process?

1:00-1:15 *Rare Disease Model*
James Perrin
Professor of Pediatrics, Harvard Medical School

1:15-1:35 Discussion

1:35-1:50 *Duke Guided Genomic Studies*
Geoffrey Ginsburg
Director, Center for Genomic Medicine

1:50-2:05 *National Cardiovascular Disease Registries*
Ralph Brindis
Regional Senior Advisor for Cardiovascular
Diseases, Northern California Kaiser Permanente

2:05-2:45 Discussion

2:45-3:00	BREAK
------------------	--------------

3:00-3:30	Panel: Where are the Gaps?
------------------	-----------------------------------

Three invited speakers will discuss their perspectives on the gaps in systems for evaluation of genome-based health care. Each participant will take 10 minutes to describe what they see as gaps, given the day's presentations.

3:00-3:10	Bruce Quinn Senior Health Policy Specialist, Foley Hoag LLP
3:10-3:20	Al Berg University of Washington
3:20-3:30	Kathryn Phillips Professor, UCSF School of Pharmacy
3:30-4:15	Discussion
4:15-4:45	Brief Summary of What Was Presented and Next Steps Wylie Burke, Chair University of Washington

4:45	ADJOURN
-------------	----------------

5:30-6:00	Reception for Speakers and Roundtable Members
6:00-7:00	Dinner for Speakers and Roundtable Members

7:00-9:00	CLOSED SESSION
------------------	-----------------------
