

CSC: Planning, Implementation, and Monitoring

Pre-Crisis Planning:

- Contingency planning
- Load-balancing
- Defining ethical principles
- Equity
- Community engagement
- Create triage algorithms
- Discussing standards for triage scores
- Defining triage teams
- Practicing triage

Crisis Activation:

- Defining criteria for activation
- Scope of activation
- Ongoing load-balancing

CSC Implementation:

- Process of calculating triage score
- Frequency of score assessment
- Frequency of triage team meeting
- Cutoff score determination
- Define minimum operating capacity (MOC)

Triage:

- Emergent
- Prospective
 - Simultaneous
 - Sequential
- Transfer
- Re-allocation

Monitoring:

During:

- Re-allocation considerations
- Appeals and discussion with family
- Palliative care
- Equity evaluations
- Fairness evaluations

After:

- Unclear
- After action report
- Accuracy of triage process
- Review of appeals
- Equity
- Community engagement
