

## Lesson 1: Invocation

### Federal Guidance

- National Academies
- HHS, ASPR, CDC, and other federal agencies

### Emergency Declarations

- State/territory/tribal public health emergencies
- Local public health emergencies

### Executive Orders

- Gubernatorial order via emergency declaration
- State or local health commissioner

### Existing CSC Plans

- Express language of extant plans
- Specific addenda or clarifications

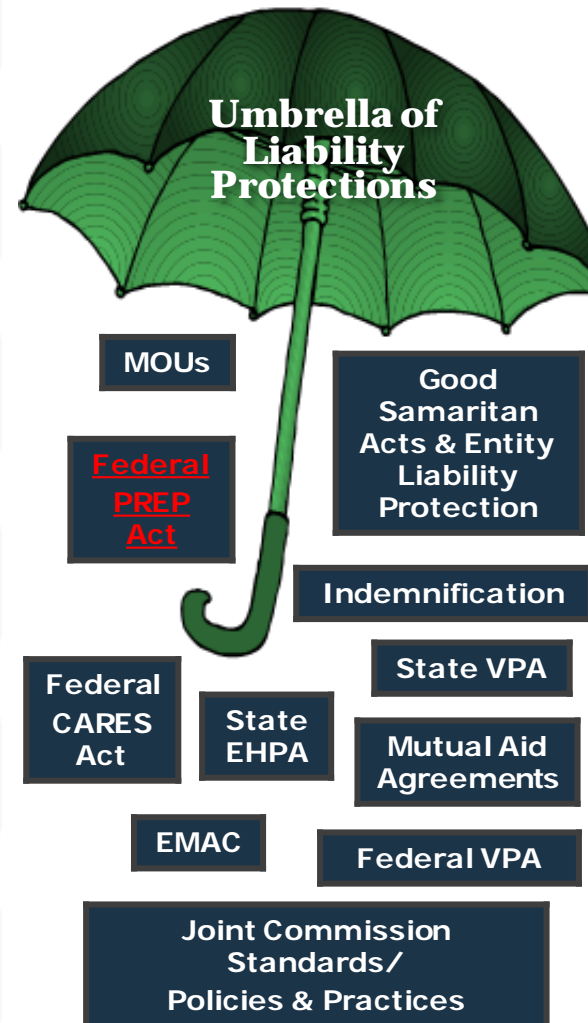

### Regional Agreements

- Specific guidance from healthcare coalitions
- Resource sharing contracts among hospitals

### Health Care Entity Experiences

- Express allowances via state CSC plans
- Committee reports based on field experiences

## Lesson 2: Accountability

## Lesson 3: Operationalizing CSC

**Categorical exclusions;  
long-term survivability**

**Facially valid,  
discriminatorily applied  
tools**

**Individualized  
assessment; best  
available medical  
evidence; short-term  
survivability**
