THE ALS ASSOCIATION CERTIFIED TREATMENT CENTERS OF EXCELLENCESM

The ALS Association's nation-wide network of Certified Treatment Centers of ExcellenceSM provides evidence-based, multidisciplinary ALS care and services in a supportive atmosphere with an emphasis on hope and quality of life.

To become certified as a Center of Excellence, each clinic must:

- Adhere to The ALS Association's clinical care and treatment standards, based on AAN Practice Parameters
- Participate in ALS-related research
- Successfully complete a comprehensive site review

18

THE ALS ASSOCIATION RECOGNIZED TREATMENT CENTERS

The ALS Association Recognized Treatment Centers have the same high-quality approach to multidisciplinary care as The ALS Association Certified Treatment Centers of ExcellenceSM; however, they do not offer onsite ALS research.

125

OTHER ALS ASSOCIATION AFFILIATED CLINICS

It is important to note that other models of care are necessary to meet the needs of all people living with ALS. These include, but are not limited to, neurology group practices and solo practitioners across the country. The ALS Association may provide educational and other support to these practitioners and their patients in their local community. However, these models of care are not an official part of The ALS Association Certified Center Program.

The ALS Association's Centers have full multidisciplinary teams of ALS specialists at the clinic who will work collaboratively with the patient and their family. The ALS Association Centers are designed to provide a regular, thorough, and interdisciplinary evaluation; answers to questions; and potential solutions to problems. Typically, a clinic visit involves a full morning or afternoon and occurs every three months.
