

SHARING TRIBAL RESEARCH INITIATIVES

LANOR CUROLE, UNITED HOUMA NATION

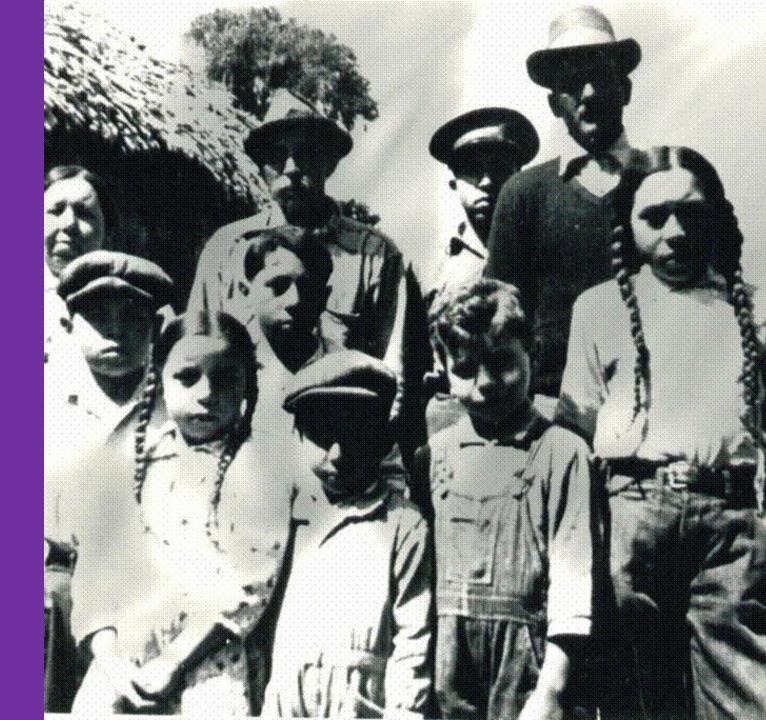

LOSING GROUND

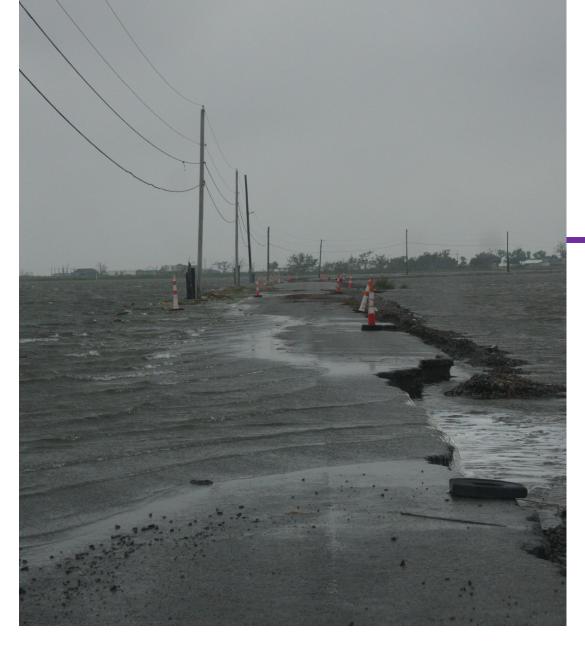

The Mississippi River Delta and coastal Louisiana are disappearing at an astonishing rate: **a football field of wetlands vanishes into open water every 100 minutes**. Since the 1930s, Louisiana has lost over 2,000 square miles of land, an area roughly the size of Delaware. Many factors have contributed to this collapse – leveeing the Mississippi River, Shipping Channels and Canals, Oil and Gas Infrastructure, Dams Upriver, Subsidence, Sea Level Rise, Hurricanes, BP Oil Disaster, and Invasive Species.

UNITED HOUMA NATION 2

FUTURE?

With the repetitive disasters increasing in intensity and frequency, the UHN looked to determine how climate change has impacted community and citizen decision-making.

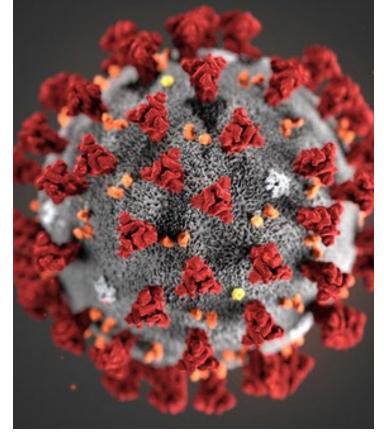

CLIMATE, CULTURE, MOVEMENT: NAVIGATING DECISION-MAKING IN A SHIFTING LANDSCAPE FOR A RESILIENT UNITED HOUMA NATION

- A Cross Sectional Look at the Problem
- The Team:
 - Tulane School of Public Health (PI)
 - University of New Orleans Center for Hazards Assessment, Response & Technology
 - University of Arizona School of Anthropology
 - Louisiana State University SEA Grant
 - Arizona State University School of Social Work
- Tools to Aid the Community/Tribe

CHALLENGES

- COVID-19
- Hurricanes Delta and Zeta in 2020
- Hurricane Ida in 2021
- Coordinating IRBs with 5 Universities

UNITED HOUMA NATION

\bullet

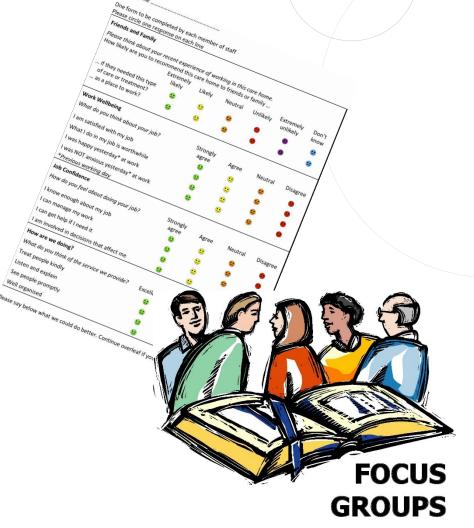

THE OPPORTUNITY

Hurricane Ida as a Category 4 gave the opportunity to observe community response in action and see impacts, response and needs in real time.

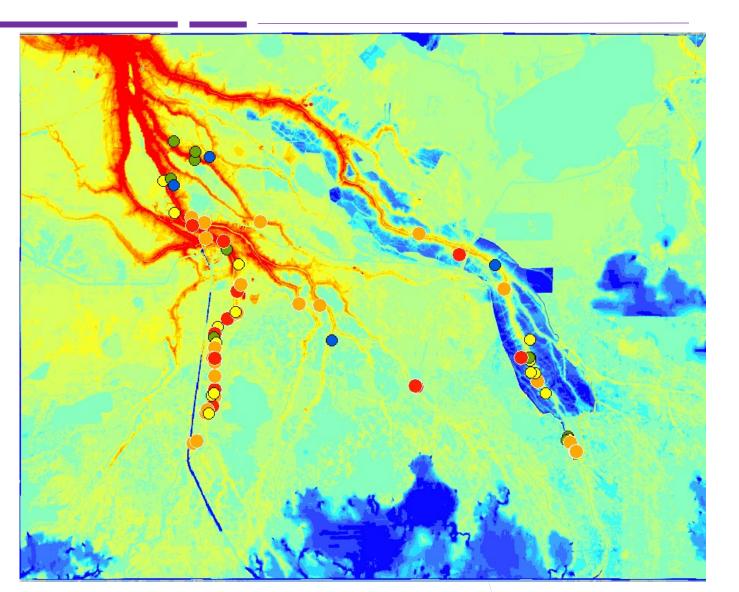

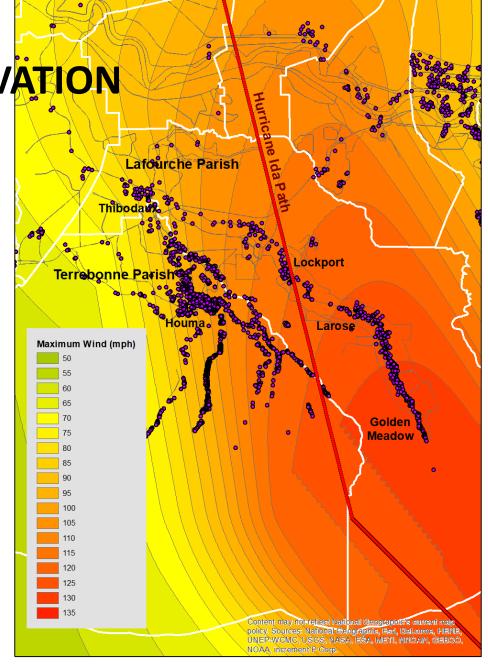

Capture Community Impacts

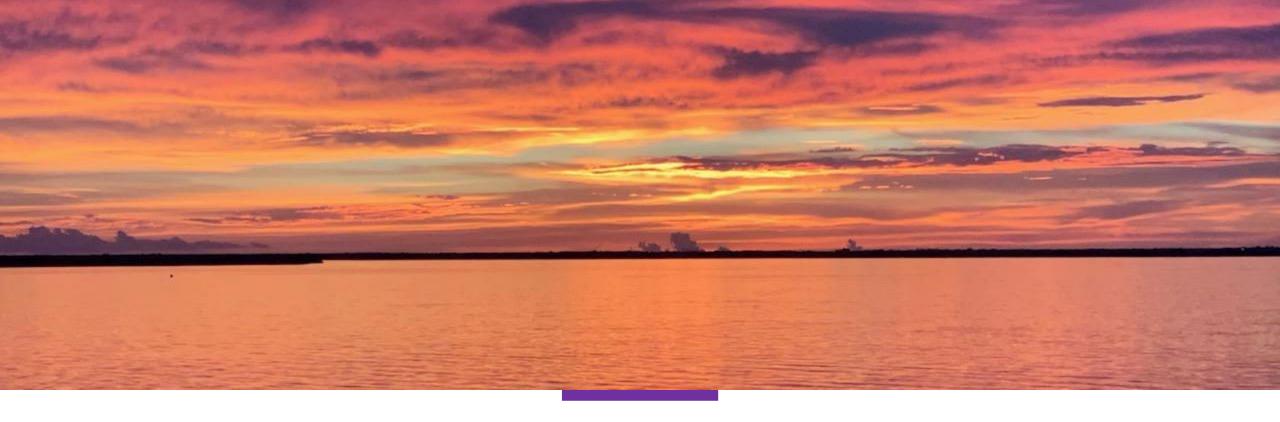

- Mapping the Impacts
- Capturing the changes and timeliness of response from government compared to needs on the ground
- Observe trends as the recovery process unfolds
- Movement and distance is relative
- Policy at odds with impacts

REVEALING MAPS – WIND SPEED V. ELEVATION

POST RESEARCH ACTION

The United Houma Nation secured \$100,000 from the Greater New Orleans Foundations Next 100 Years Challenge to address tribal resiliency. That funding is providing the seed money to develop more comprehensive plans for a 5 part comprehensive project that if successful will seek out millions to put long term planning in the hand of tribal citizens.

YAKOKE! THANK YOU!
