

Models of State and Local Collaboration Between Health and Education

Loel S. Solomon, Ph.D.

Vice President, Community Health

Kaiser Permanente

IOM Roundtable on Population Health

Workshop on Health and Education – Working Together Towards Common Goals

June 5, 2014

Our Mission & History

Our Mission: “To provide high quality, affordable health care, and to improve the health of our members and the communities we serve”

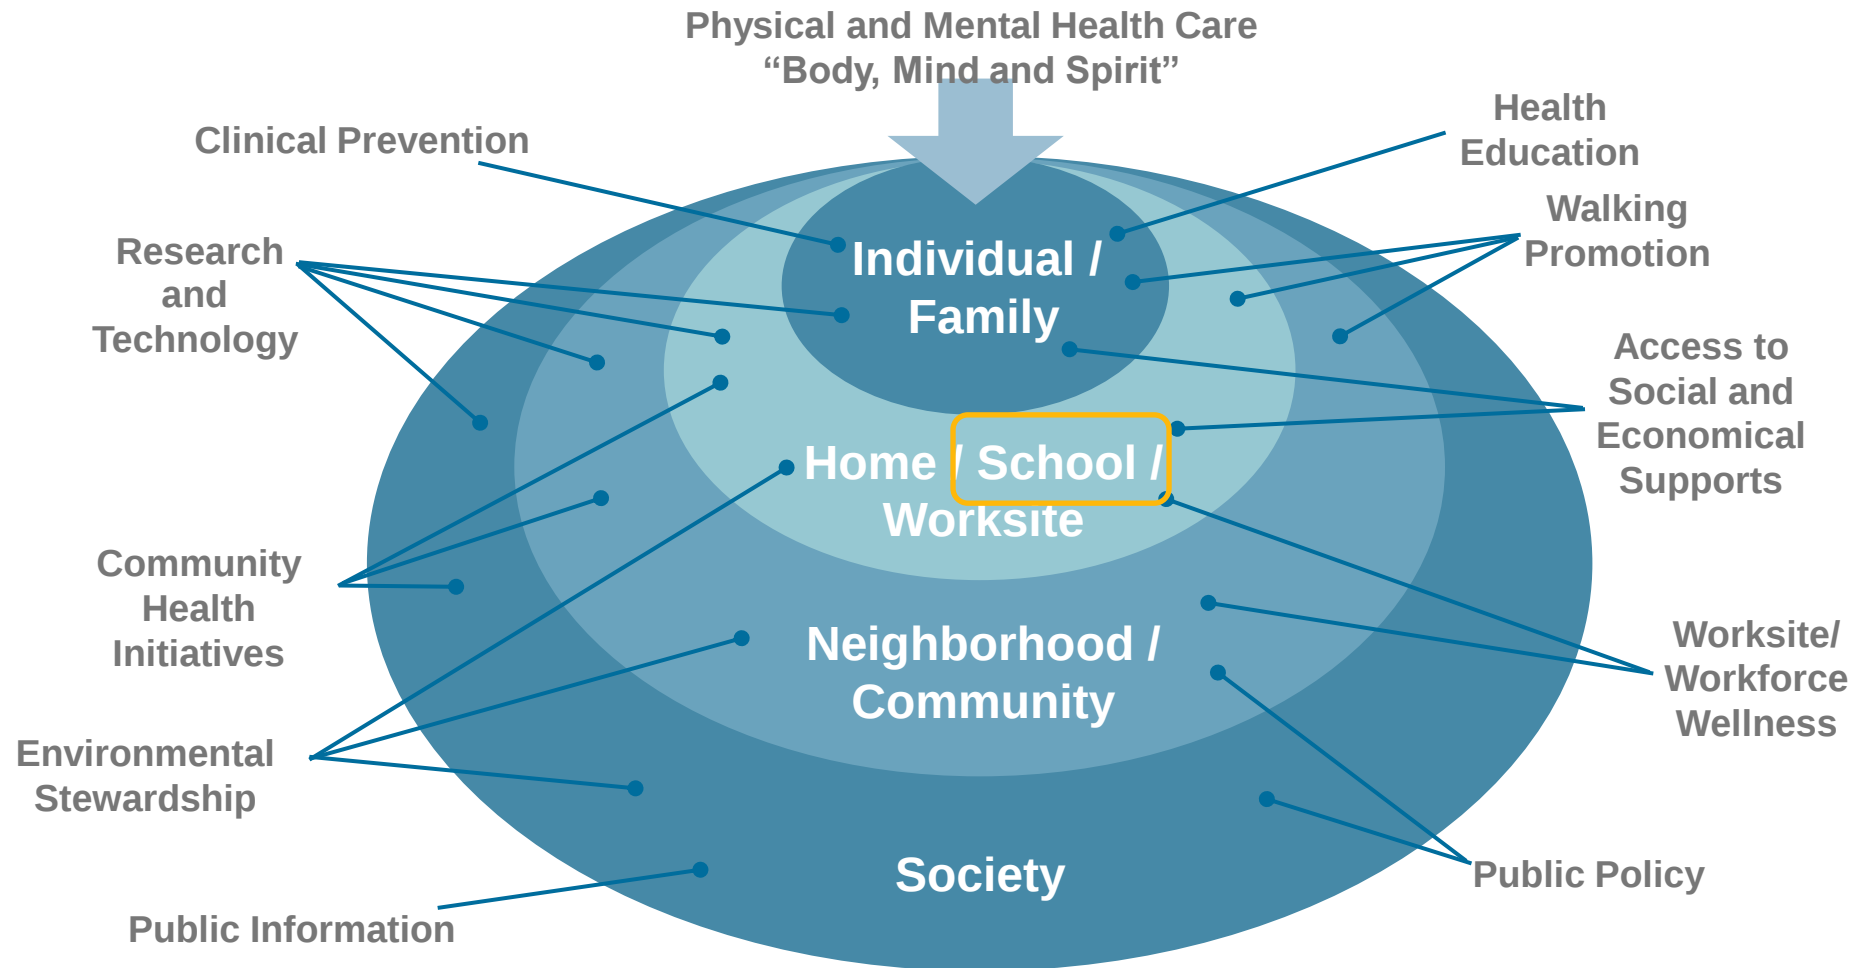

Why Schools?

- 1-in-5 Kaiser Permanente members spends most of their day in schools
- A growing evidence base
- Kaiser Permanente's Total Health perspective

Total Health: Activating KP Assets at All Levels

Thriving Schools

Goals

- Improved health
- Productivity, academic achievement, schools census as co-benefits

Focus Areas

- Healthy Eating
- Active Living
- School Climate

Targets: K-12 schools

- Students
- Staff and teachers
- School environment

Key Partners

- Frame-shift: divergent goals, convergent strategies
- Support for translation and local champions
- Minding the gap between knowledge and practice
- Aligned measurement and accountability systems
