

# Employee Health Improvement: A Focus on Small- and Mid-Sized Employers Presented by the Clinton Health Matters Initiative

#### **CLINTON HEALTH MATTERS INITIATIVE**

#### What We Do

- Build strategic partnerships that will help facilitate the development and scaling of health promoting solutions.
- Work across sectors to develop and implement coordinated, systemic approaches to creating healthier communities.
- Leverage technology and digital innovation to help advance health and wellness at the national and community levels by disseminating evidence-based individual, systems, and investment strategies.

# **CURRENT COMMUNITIES**

- 1 The Coachella Valley, California
- Central Arkansas (Little Rock), Arkansas
- 3 Northeast Florida (Jacksonville), Florida
- Greater Houston, Texas
- 5 Adams County, Mississippi
- 6 Knox County, IL

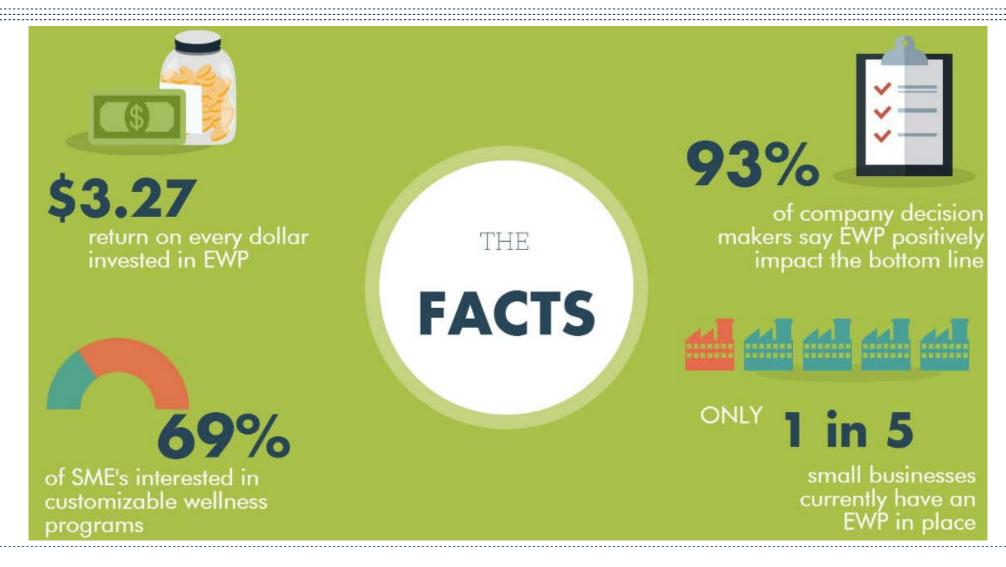

## THE COST OF POOR HEALTH

#### THE NEED

## **FRAMEWORK**

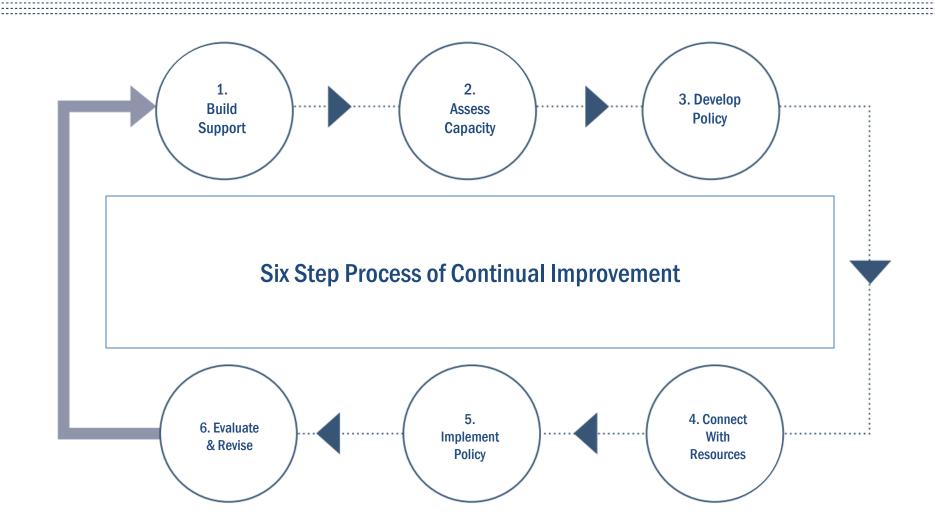

#### **Vision**

- Create systemic change in business organizations, communities, and industries to support improvements to employee wellbeing;
- Prevent incidences of chronic diseases, especially in the area of employee population health; and,
- Improve organizational health by looking at the costeffectiveness and impacts to productivity of employee health improvement programs and practices.

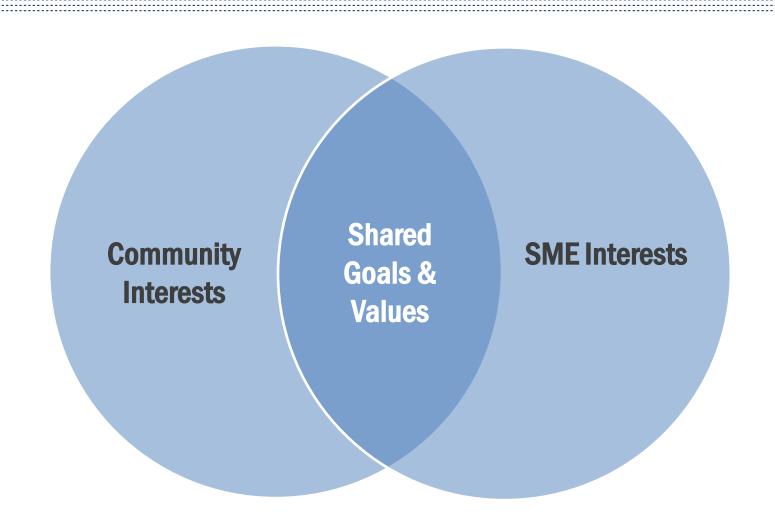

# **APPROACH**

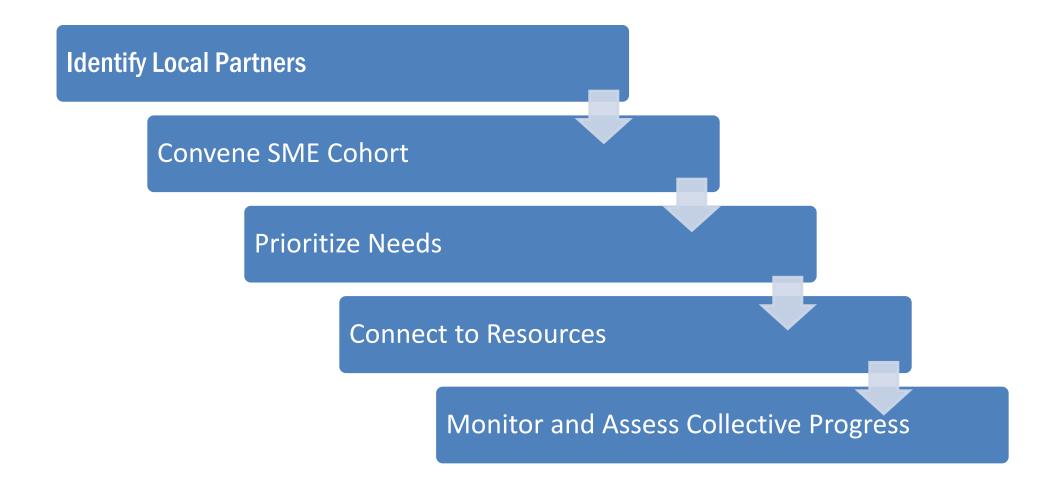

# **PRINCIPLES OF ENGAGEMENT**

# **ENGAGEMENT STRATEGY**

## **SME TOOLKIT**

HEALTHY AND HIGH PERFORMING WORKFORCE Lower risk for heart disease, some cancers, osteoporosis, and diabetes

Maintain and manage weight

- Rewards, Incentives, & Recognition

#### **Nutrition**

- Built Environment Improvements
- Vendor and Vending Machine Policies
- Access to Healthy Food
- Rewards, Incentives, & Recognition

#### **Mental Health**

- Built Environment Improvements
- Communicate EAP resources
- Combat stigma

#### **EVALUATION & IMPACT**

#### **Organizational Assessment**

- Primary Goal is to track policy and business practice change across a cohort of local SMEs in each of our six communities
- Phased evaluation approach analyze baseline data, establish shared metrics, and then collect, track, and report on progress
- Pre- and Post-Assessments for each participating employer
- Incorporation of outcomes into a larger evaluation of the collective impact model conducted at the regional level (interim report expected 4Q 2016)
