

# Caring for People With Serious Illness in the Home: Hospice Lessons Learned From the COVID-19 Pandemic

Joseph W. Shega, MD  
SVP/CMO

# Outline

- Clinical Care
  - Staff Education and PPE Protocols
  - PPE Access and Supply
  - Care Model
- Operational Procedures
  - Employee Operating Procedures
  - Infection Control Site Manager
  - Health Check App
- COVID-19 Controls
  - Testing
  - Vaccinations

# Clinical Care – Staff Education and PPE Protocols

- Prevent others from getting sick
  - Stay at home if you are ill
- Reduce viral exposure
  - Wash your hands, clean and disinfect surfaces and socially distance
- Wear appropriate PPE
  - Follow CDC guidelines at work and at home

Physical distancing, face masks and eye protection to prevent person-to-person transmission of SARS-CoV-2 and COVID-19: a systematic review and meta-analysis				
Chu, DK, et al., Lancet, 2020				
	Comparison Group	Intervention Group	Relative Effect aOR	
Physical Distance	Short distance, 12.8%	Further distance, 2.6%	0.18	
Face Masks	No face mask, 17.4%	Face mask, 3.1%	0.15	
Eye Protection	No eye protection, 16%	Eye protection, 5.5%	0.34	

Patient Status	Staff PPE Required	Patient PPE Recommended (as tolerated)
<u>Not known to be infected</u> with COVID-19 or PUI	<ul style="list-style-type: none"> <li>• Surgical mask or cloth face covering with face shield or goggles</li> <li>• Universal Precautions</li> </ul>	<ul style="list-style-type: none"> <li>• Surgical Mask or cloth face covering</li> </ul>
<u>Not known to be infected</u> with COVID-19 or PUI and <u>aerosolizing procedures</u> being performed	<ul style="list-style-type: none"> <li>• Surgical mask with face shield or goggles</li> <li>• Universal Precautions</li> </ul>	<ul style="list-style-type: none"> <li>• Surgical Mask or cloth face covering</li> </ul>
<u>Known to be infected</u> with COVID-19 or PUI	<ul style="list-style-type: none"> <li>• Surgical Mask or KN95 with face shield or goggles</li> <li>• Gown</li> <li>• Universal precautions</li> </ul>	<ul style="list-style-type: none"> <li>• Surgical Mask or cloth face covering</li> </ul>
<u>Known to be infected</u> with COVID-19 or PUI and <u>aerosolizing procedures</u> being performed	<ul style="list-style-type: none"> <li>• Fit Tested N95 or KN95 with face shield or goggles</li> <li>• Gown</li> <li>• Universal precautions</li> </ul>	<ul style="list-style-type: none"> <li>• Surgical Mask or cloth face covering</li> </ul>

# Care Model

## Impact on Workforce

**VITAS**  
Healthcare

## Telehealth

## Grief Support for Caregivers

### Remote Caregiver Support Groups

VITAS' Healthcare's Caregiver Support Groups provide information and support to individuals caring for their loved one. Whether providing direct physical care or oversight of needed care, the caregiver role is a difficult one. To view the schedule and register, go to [VITAS.com/supportgroups](https://www.vitas.com/supportgroups).

Weekly Zoom Caregiver Support Groups				
Topic	Day and Time	Facilitator	Phone	Contact Info
General Caregiver Support	Tuesday 5:45 pm EST - 6:45 pm CST 2:30 pm PST	Amy Stallings	800.486.4157	Amy.Stallings@vitas.com
General Caregiver Support	Thursday 4:00 pm EST - 5:00 pm CST 1:00 pm PST	Barbara Adams-Plym-Fox	888.313.9141	Barbara.Adams-Plym-Fox@vitas.com
Caring for My Loved One and Coping with the COVID-19 Pandemic	Friday 9:20 am EST - 10:40 am CST 6:40 am PST	Dan Poland	833.596.0236	Dan.Poland@vitas.com

Weekly Phone-in Caregiver Support Groups				
Topic	Day and Time	Facilitator	Phone	Contact Info
General Caregiver Support	Monday 6:00-8:00 pm EST 3:00-5:00 pm CST 1:00 pm - 2:30 pm PST	Carolyn Doherty	866.778.5317	Carolyn.doherty@vitas.com
Caring for My Loved One and Coping with the COVID-19 Pandemic	Tuesday 1:20 pm EST 10:30 am CST 8:10 am PST	David Tolpach	866.987.5193	David.Tolpach@vitas.com
Caring for My Loved One and Coping with the COVID-19 Pandemic	Thursday 10:10 am EST 7:10 am CST 5:10 am PST			
Grupos de apoyo para los que cuidan a un ser querido	Monday 1:20 pm EST 10:30 am CST 8:10 am PST	Bogert Hernandez	818.285.8847	Bogert.hernandez@vitas.com

## Volunteers

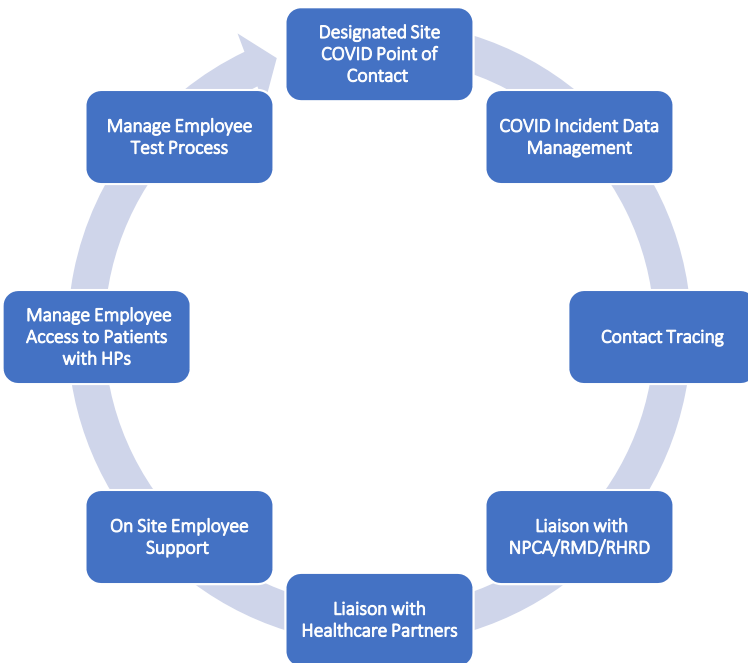

# Operational Procedures - EOPs

EOP	General Description
1	Employees that <u>have not</u> had direct exposure with COVID-19
2	Employees that <u>have</u> had presumed non-healthcare related direct exposure with COVID-19
3	Employee has a confirmed fever or respiratory infection and first-hand non-healthcare related exposure to COVID-19
4	Employee has signs or symptoms of fever or respiratory infection with no known exposure to COVID-19
5	VITAS clinical team member knowingly caring for a patient known to have COVID-19 (healthcare related), or patient under investigation (PUI) for COVID-19
6	VITAS clinical team member undergoes asymptomatic screening and tests positive for COVID-19 whether or not through work
7	Symptoms within first 3 days of vaccination for employees with <u>no known</u> COVID exposure
8	Symptoms within first 3 days of vaccination for employees <u>with known</u> COVID exposure

COVID-19 Employee Operating Procedures	
COVID-19 Employee Operating Procedures	
Employee Situation	Management Response Key Messages & Actions
<p>2. Employees that <u>have</u> had healthcare related direct exposure with COVID-19. This includes employees that have traveled to known travel advisory listing within link provided below.</p> <p><b>Examples:</b></p> <ul style="list-style-type: none"> <li>a. A Positive COVID-19 was confirmed on a cruise, airplane you were on.</li> <li>b. Direct contact with family member who has tested positive for COVID-19 in another state or country.</li> <li>c. Travel to other states or countries with travel advisories due to COVID-19 or known contact with any individual positive for COVID-19 either during visit.</li> </ul> <p>*Updated travel advisory listing is contained within link provided below:  <a href="https://www.cdc.gov/coronavirus/2019-ncov/travelers/index.html">https://www.cdc.gov/coronavirus/2019-ncov/travelers/index.html</a></p> <p>3. Employee has a confirmed respiratory infection and first-hand healthcare related exposure.</p> <p><b>Example:</b></p> <ul style="list-style-type: none"> <li>a. Employee has signs or symptoms of respiratory infection due to COVID-19 virus from travel with any individual that has tested positive for COVID-19 by any other means.</li> </ul>	<p><b>When there is no known contact with COVID-19 or direct exposure:</b></p> <ul style="list-style-type: none"> <li>• Employee is <u>able to work</u> with no restrictions.</li> <li>• Self-Monitoring is still required to ensure the safety and well-being for employee, coworkers, patients, families and partners.</li> <li>• Employee should monitor twice a day for temperature and signs and symptoms URI with no work restrictions – (additional guidelines forthcoming)</li> <li>• Questions regarding ongoing employee monitoring requirement should be escalated to your RMD and/or NPCA to ensure ongoing compliance.</li> </ul> <p>Follow these CDC Guidelines:  <a href="https://wwwnc.cdc.gov/travel/page/covid-19-cruise-ship">https://wwwnc.cdc.gov/travel/page/covid-19-cruise-ship</a></p> <p><b>Take everyday precautions:</b></p> <ul style="list-style-type: none"> <li>• Avoid close contact with people who are sick</li> <li>• Take everyday preventive actions: <ul style="list-style-type: none"> <li>○ Clean your hands often</li> <li>○ Wash your hands often with soap and water for at least 20 seconds, especially after blowing your nose, coughing, or sneezing, or having been in a public place.</li> <li>○ If soap and water are not available, use a hand sanitizer that contains at least 60% alcohol.</li> <li>○ To the extent possible, avoid touching high-touch surfaces in public places – elevator buttons, door handles, handrails, handshaking with people, etc. Use a tissue or your sleeve to cover your hand or finger if you must touch something.</li> <li>○ Wash your hands after touching surfaces in public places.</li> <li>○ Avoid touching your face, nose, eyes, etc.</li> <li>○ Clean and disinfect your home to remove germs: practice routine cleaning of frequently touched surfaces (for example: tables, doorknobs, light switches, handles, desks, toilets, faucets, sinks &amp; cell phones)</li> <li>○ Avoid crowds, especially in poorly ventilated spaces. Your risk of exposure to respiratory viruses like COVID-19 may increase in crowded, closed-in settings with little air circulation if there are people in the crowd who are sick.</li> <li>○ Avoid all non-essential travel including plane trips, and especially avoid embarking on <u>cruise ships</u>.</li> </ul> </li> </ul> <p><a href="https://www.cdc.gov/coronavirus/2019-ncov/specific-groups/high-risk-complications.html">https://www.cdc.gov/coronavirus/2019-ncov/specific-groups/high-risk-complications.html</a></p>
