

- 1) Remember Community Colleges do almost half of all undergraduate education and much of the nation's workforce development training while receiving a pittance of institutional giving.
- 2) Avoid mistakes of 2008-2012.
- 3) Push for workforce training needs to come from industry or through well-funded initiatives done through recognized community college organizations.
- 4) Johnson County Community College's Sustainability Distinction Program.
- 5) Hope Matters.
