# Keeping it Local - Meeting the Needs of Communities

## Communities Conquering COVID

**Earn \$1,000 when your business or church participates in the Communities Conquering COVID vaccination education program.**

The program will train representatives from barbershops, salons, churches and faith-based organizations as community health advocates to provide vaccination education and materials to their members and clients.

- Receive training about COVID-19 and how important your business or organization is for community health.
- Give out COVID-19 home test kits and vaccination materials, and share information with your members and clients.
- Help hold a vaccination event in your area.
