

# Committee on Strategies to Better Align Investments in Innovations for Therapeutic Development with Disease Burden and Unmet Needs

Public Webinar

July 15, 2025

## PURPOSE AND OBJECTIVES

A National Academies committee was convened to examine the challenges in better aligning investment in therapeutic development with disease burden and unmet need and offer recommendations to close these gaps. On July 15, the committee will hold a public webinar about the newly released consensus study report's key messages and recommendations. Questions from the audience about the report are welcome.
