

# 19th U.S. National Congress on Theoretical and Applied Mechanics

June 19-24, 2022

Austin, Texas

## Call for Abstracts

19th U.S. National Congress on Theoretical and Applied Mechanics

*June 19 - 24, 2022, Austin, TX, USA*

The US National Congress of Theoretical and Applied Mechanics is held every four years under the auspices of the U.S. National Committee on Theoretical and Applied Mechanics (USNC/TAM) to foster and promote the exchange of ideas and information among the various disciplines of the TAM community around the world, and to chart future priorities in mechanics related research, applications and education. The 19th USNC/TAM will be hosted by the University of Texas at Austin, at the AT&T Executive Education and Conference Center from June 19-24, 2022.

Members of the theoretical and applied mechanics community are invited to submit abstracts for presentations of their work at the 19th USNC/TAM. A listing of the symposia for the congress can be found here, <https://www.usnctam2022.org/congressMS>. Abstracts are solicited in all areas of fluid and solid mechanics, including experimental mechanics, computational mechanics, dynamical systems, materials, data science, structural mechanics, and biomechanics. Abstracts must include the following information:

- Names of the authors and their contact information (e-mail, phone and affiliation)
- Title
- Abstract briefly describing the work
- Keywords describing work

Abstracts should be submitted online at:

[https://www.usnctam2022.org/abstract\\_instructions](https://www.usnctam2022.org/abstract_instructions)

Submission deadline **8:00 PM Eastern (5:00 PM Pacific), Saturday, December 18, 2021.**
