

# Space Science Board

## 1958-1974

The NAS Space Science Board (SSB) was appointed in spring 1958 at the request of the Executive Committee of the US National Committee for the International Geophysical Year. The Board's mission was to survey the scientific aspects of the human exploration of space. Accordingly, the SSB provided advice on the continuation and expansion of the IGY's rocket and satellite program, and later advised NASA, the Department of Defense, and the National Science Foundation on aspects of interplanetary probes and space stations, potential problems of manned spaceflight, the exploration of Venus and Mars, and other matters related to space.

The Space Science Board collection covers the years 1958-1974 and contains correspondence, reports, and meeting minutes for a span of 20 linear feet.

### ADMINISTRATION

#### COMMITTEES & BOARDS

- Space Science Board: Biological Coordinating Group: 1962
- Committees
  - Atmosphere of Earth & Planets: 1961
  - Atmospheric Sciences: 1961-1962
  - Chemistry of Space & Exploration of Moon & Planets
    - Meetings: Fourth: 1961
    - General: 1961-1962
  - Environmental Biology
    - Membership: 1961-1962
    - Meetings: 1961-1962
    - Panels
      - Circadian Rhythms: 1961
      - Closed Ecological Systems: 1962
      - Gravity: 1962-1964
      - Magnetic Radiofrequency & Other Field Effects: 1962-1963
      - Radiation Biology: 1962-1963
      - General: 1961-1963
    - Report: 1961-1962

- General: 1961-1963
- Exobiology: 1961-1962
- Geodesy: 1961
- High Altitude Rocket & Balloon Research
  - Meetings: 1962
  - Membership: 1962-1964
  - General: 1962-1964
- International Relations: 1961-1966
- Life Sciences: 1963-1965
- Lunar Sample Handling Facility: Ad hoc: 1965
- Man in Space
  - Conference on Radiation Problems Associated with Manned Lunar Landing Program: 1961
  - End of Program: 1962-1963
  - Meetings: 1961-1962
  - Membership: 1961-1962
  - Planning Group: 1961-1962
  - Policy & Program: Discussions: 1961-1962
  - Relationships
    - NASA: 1961-1962
    - PSAC: 1961-1962
  - Study of Role of Scientist in Scientific Activities in Space: 1961
  - Working Groups
    - Gaseous Environment for Manned Spacecraft: 1962-1964
    - Nutrition & Feeding Problems: 1962-1963
    - Problem of Weightlessness in Space Flight: 1962-1963
    - Radiation Problems in Spaceflight: 1961-1963
    - Temperature Problems: 1962-1963
  - General: 1962-1963
- Meteorological Aspects of Satellites: 1961
- NASA-University Relations: Ad hoc: 1965
- NASA/University Relationships: Ad hoc: 1961-1962
