

Solid Carbon Products LLC

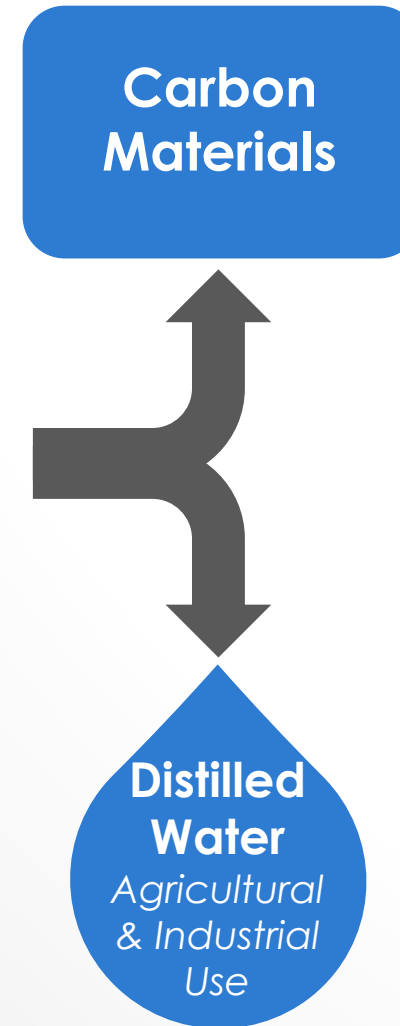

***Transforming CO₂
from an environmental liability
into a profit center.***

www.solidcarbonproducts.com

Re-engineering the carbon production industry

Note** [CO₂ + H₂] feedstock already proven at pilot scale.
Next up [CO₂ + CH₄]

Global Carbon Production Annually
Coke Steel Refining >400 Million Tons
Carbon Black Tires, Plastics, Coatings 13,000,000 Tons
High Purity Carbon Graphite Electrodes Battery Anodes 1,580,000 Tons
Concrete Aggregate Replacement Potentially 700MT

Noyes Process is Carbon-Negative

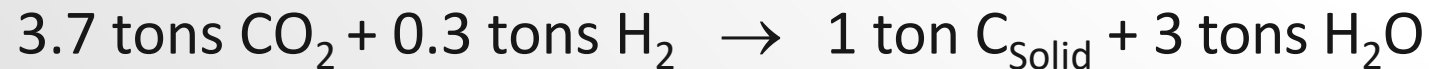

“the numbers indicate that the overall Noyes Process is **carbon-negative** - in other words, there is a **net carbon reduction** – under just about any configuration of the technology”

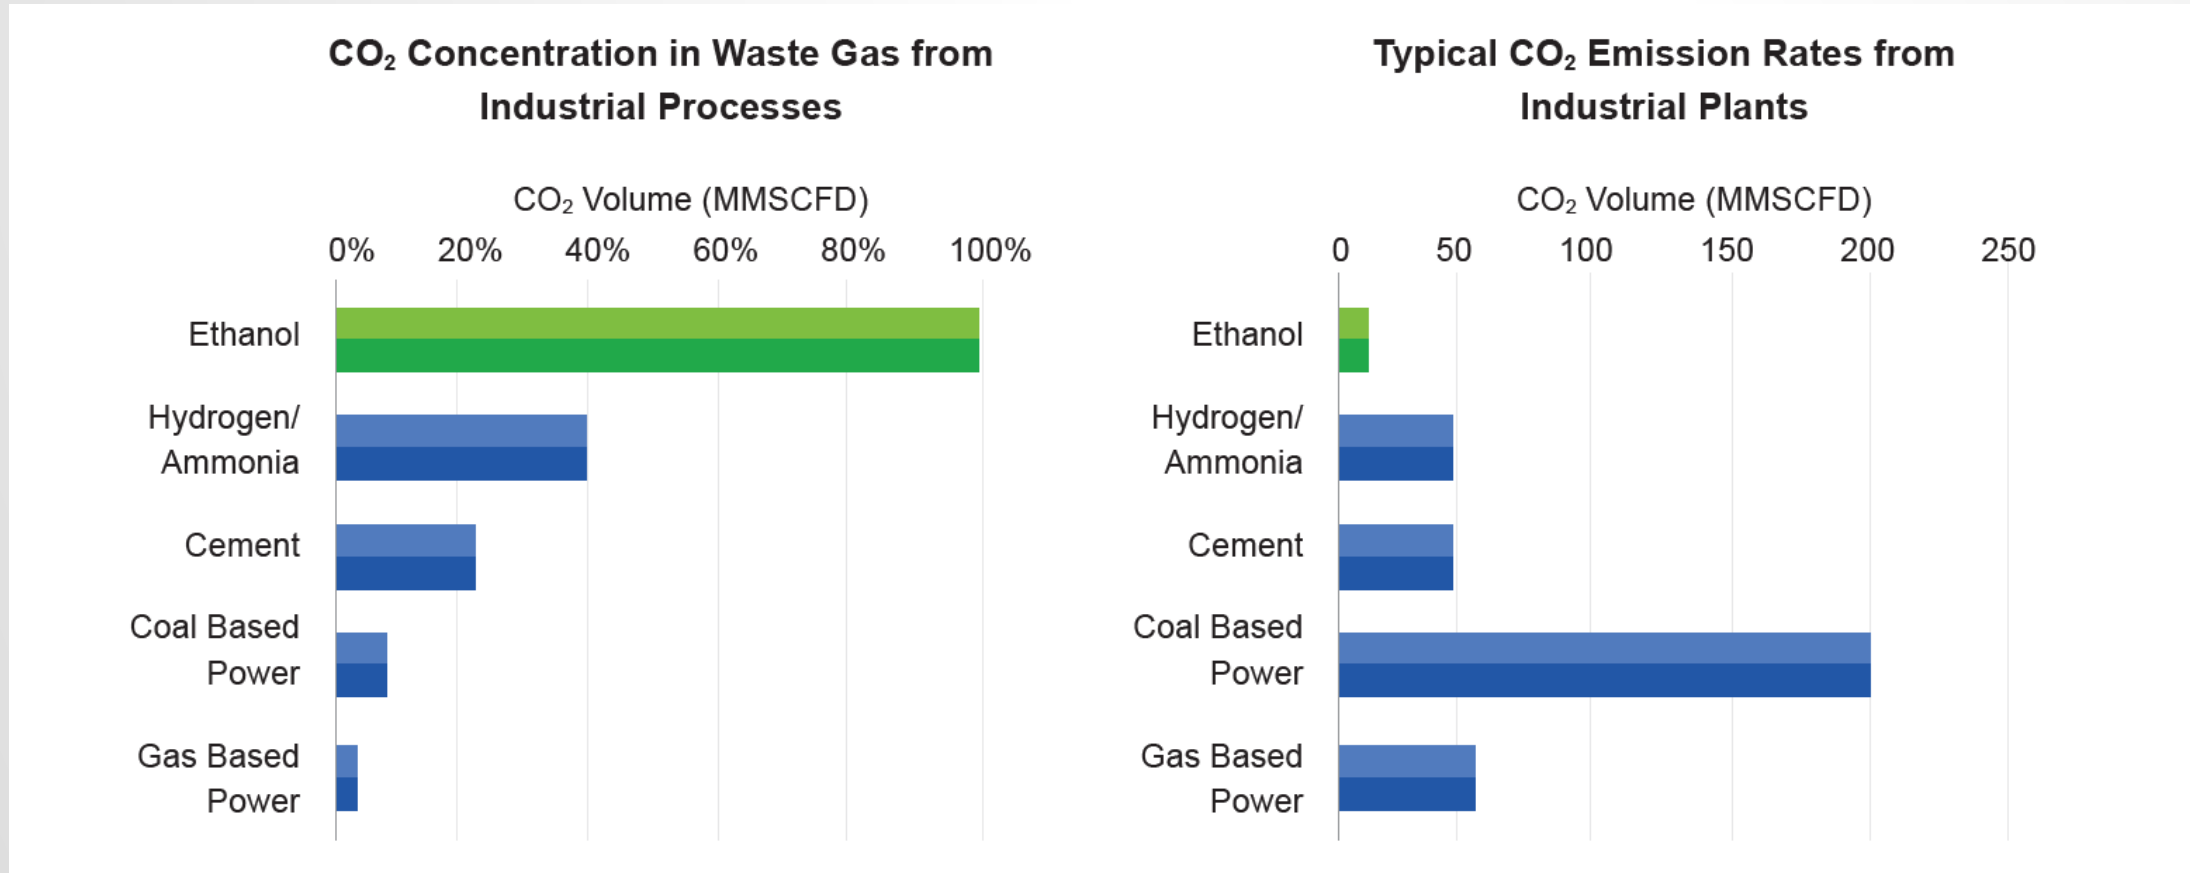

Stoichiometry

Mass Balance

Sources of CO₂ - SCP is source agnostic
