Reimagining the Civic Commons. 2018. [Principles: A New Way of Working for Cities](#).

- Case Studies, organized by our 9 ways of working principles
 - o [Principle 1](#): Design, manage, and operate civic assets as a portfolio, focused on influencing social outcomes of civic engagement, socioeconomic mixing, environmental sustainability, and value creation:
 - o [Principle 2](#): Recognize the intrinsic value of existing buildings, assets, neighborhoods, and people that others disregard:
 - o [Principle 3](#): Bring people of all backgrounds back into public life, reconnecting communities to civic assets where trust can be formed:
 - o [Principle 4](#): Shift the behavior of citizens from consumers to producers in order to cultivate stewards and champions of the assets:
 - o [Principle 5](#): Provide the best quality for all that can compete with alternatives in the private sector
 - o [Principle 6](#): Welcome everyone and create opportunities for shared experience among people of all incomes and background
 - o [Principle 7](#): Connect people to nature and invite visitorship via walking, biking or transit
 - o [Principle 8](#): Provide ecological benefits to the surrounding neighborhood:
 - o [Principle 9](#): Attract additional investment in the surrounding neighborhood in a way that sustains public spaces and benefits existing communities

Project for Public Spaces: Parts 1 - 3 of a 4 part series on inclusivity
