

Addressing Health Disparities in Central Nervous System Disorders

Hector M. González, PhD

UC San Diego, Department of Neurosciences

National Academies Workshop 3 – 27 April 2023

Study of Latinos - Investigation of Neurocognitive Aging

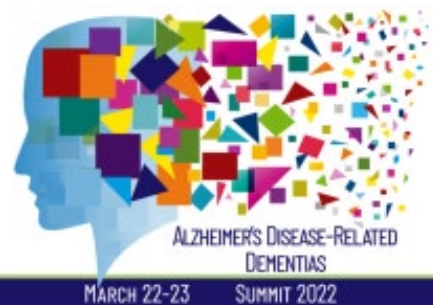

Achieving Equity in CNS research

- Environmental/Neighborhood/place-level
- Barriers & Opportunities
- Driving transformation (my perspectives)
 - Clinician
 - Career scientist in ADRD population neuroscience
 - Latino, studying Latinos

Priorities for achieving equity in CNS research

- **Inform practice and policy - Impact**
- **Identify lifecourse economic, social, and structural impediments to equity**
- **Surveillance systems (Inclusion science of diverse communities)**
- **Generate culturally appropriate tools (cognitive & -omics)**
- **Nurture (fund) career development**
- **Diverse scientific workforce**
