

Review of BOEM Goals for Standing Committee

Standing Committee on Offshore Wind Energy and Fisheries

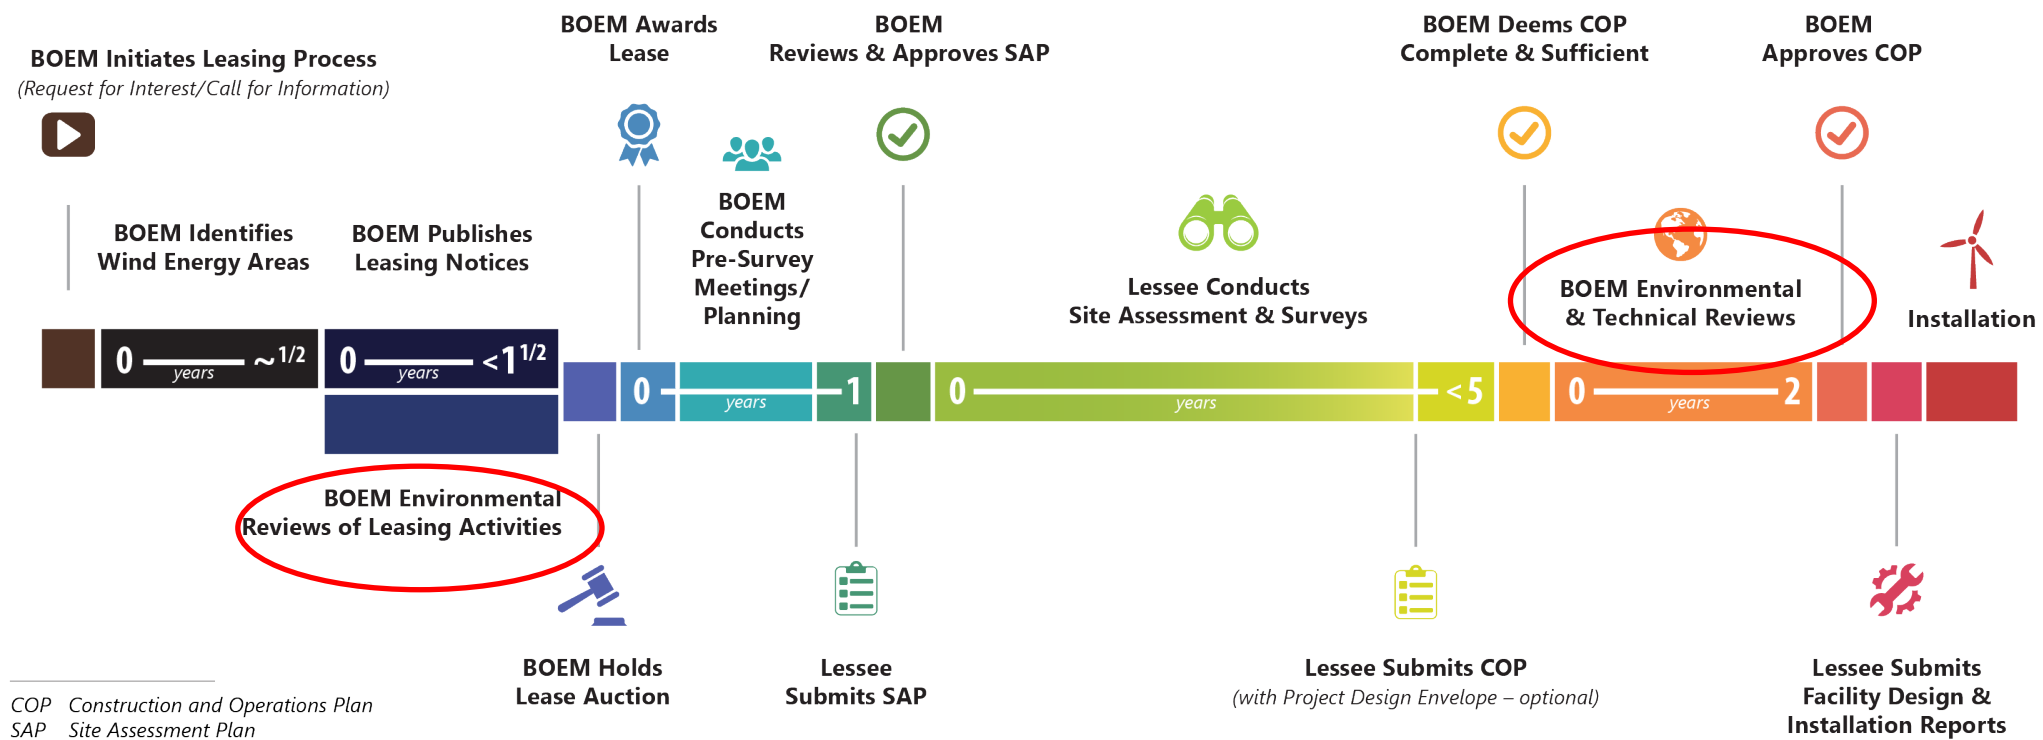

April 26, 2023

Brian Hooker - BOEM

BOEM Planning Process

[Planning & Analysis] [Leasing] [Site Assessment] [Construction & Operations]

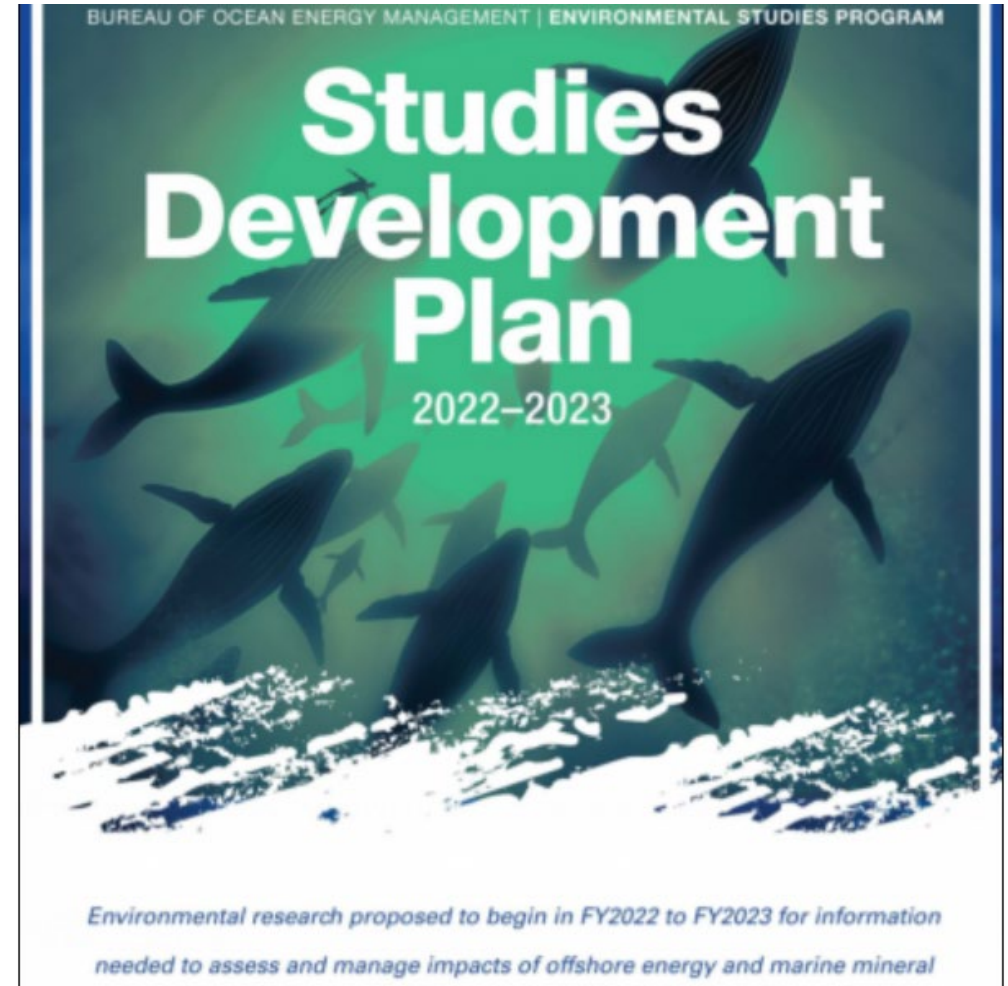

Intergovernmental Renewable Energy Task Force

- Requested by Governors
- Consist of representatives from federally recognized tribes, Federal agencies, states, and local governments.
- Serve as forums to coordinate planning, solicit feedback, educate about BOEM's processes, permitting, and statutory requirements, and exchange scientific and other information
- While open to the public, task force membership is limited to government representatives.

BOEM-identified Feedback Categories

- Identification of effective communication strategies for BOEM,
- Identification and development of a coordinated research plan,
- Provide feedback on issues that require BOEM guidance,
 - mitigation strategies,
 - best practices for developers' outreach and
 - the role of fisheries liaisons and representatives.
