# Office of the Secretary PCOR Trust Fund (OS-PCORTF)

- Between 2003 and 2010, three laws were enacted that authorized research and funding to expand research on the **outcomes and effectiveness** of treatments and interventions used in health care
  - MMA 2003, ARRA 2009, ACA 2010
- In 2019, the PCOR Trust Fund was reauthorized for 10 years

## 3 streams of work and funding:

**ASPE**

RESEARCH TRUST FUND**

# PCORTF Reauthorization Through 2029 Invites Reflection, Reconsideration

The Secretary of HHS is to “provide for the coordination of relevant Federal health programs to **build data capacity for comparative clinical effectiveness research**, including the development and use of clinical registries and health outcomes research data networks, in order to **develop and maintain a comprehensive, interoperable data network** to collect, link, and analyze data on outcomes and effectiveness from multiple sources, including electronic health records.”

*Affordable Care Act, Section 6301*

## 2019 PCORTF Reauthorization Broadened Scope:

- Explicit additions: intellectual/developmental disabilities, maternal mortality
- Expansion: “Full Range of Outcomes Data,” including economics

**ASPE**  
ASSISTANT SECRETARY FOR  
PLANNING AND EVALUATION

# HHS OS-PCORTF Portfolio Coordination

1. Administration for Children and Families (ACF)
2. Administration for Community Living (ACL)
3. Assistant Secretary for Preparedness and Response (ASPR)
4. Agency for Healthcare Research and Quality (AHRQ)
5. Centers for Disease Control and Prevention (CDC)
6. Centers for Medicare and Medicaid Services (CMS)
7. Food and Drug Administration (FDA)
8. Health Resources and Services Administration (HRSA)
9. Indian Health Service (IHS)
10. National Institutes of Health (NIH)
11. Office of the Chief Technology Officer (CTO)
12. Office of the National Coordinator for Health Information Technology (ONC)
13. Substance Abuse and Mental Health Services Administration (SAMHSA)
14. Assistant Secretary for Planning and Evaluation (ASPE) Coordinator

**ASPE**

# Key Components of Strategic Planning

## Initial Listening Session

Principal Stakeholder Group:  
“The Field”: Including health services researchers, policy analysts and other PCOR producers, users of PCORTF products  
Completion: August 2020

## External Engagements

Principal Stakeholder Group:  
External government and non-governmental organizations and actors involved with producing, using data for PCOR and other health care and systems research, policy and practice purposes  
Completion: January 2022

## HHS Internal Engagements

Principal Stakeholder Group:  
HHS agencies that produce, use PCOR data and conduct/participate in PCOR activities  
Completion: March 2022

## Public Request for Information

Principal Stakeholder Group: Active but not necessarily affiliated organizations and individuals involved with producing, using PCOR data for PCOR and other health care and systems research, policy and practice purposes  
Completion: TBD

**FEDERAL REGISTER**  
The Daily Journal of the United States Government

## HHS OS-PCORTF Leadership Council Engagement

Principal Stakeholder Group:  
Decision/advisory entity for ASPE, Secretary  
Completion: Ongoing

**ASPE**

# OS PCORTF Vision -- First Decade

**Goal:** To build data capacity in HHS that supports research on patient health outcomes.

- PCOR is intended to provide decision makers with objective, scientific evidence on the **effectiveness** of treatments, services, and other interventions used in health care.
- This research is frequently focused on analyzing existing data to study questions and provide objective information for the purposes of **informing real world health care decisions.**

**ASPE**

# PATIENT-CENTERED OUTCOMES RESEARCH

## USERS

Patients  
Consumers

Researchers  
Payers and Purchasers  
Providers & Health Systems

Public Health  
Federal Agencies

### THE "SUPPORT"

Users of the data infrastructure and contributors to PCOR.

## FUNCTIONALITIES

Use of  
Clinical Data  
for Research

Standardized  
Collection of  
Standardized  
Clinical Data

Linking  
Clinical and  
Other Data for  
Research

Collection of  
Participant-  
Provided  
Information

Use of  
Publicly-  
Funded Data  
Systems for  
Research

### THE "PILLARS"

Core research functions and HHS focus areas for enhancing and improving data infrastructure.

## COMPONENTS

Services

Standards

Policies and Governance

### THE "BUILDING BLOCKS"

Data sources and components are necessary for ensuring that electronic data is usable for research.

## DATA SOURCES

Primary Data  
Collected for  
Clinical Care

Primary Data  
Collected for  
Research

Patient Contributed Data  
Payer-Admin Data  
Federal Data

Social Determinants  
of Health  
[data source]

### THE "DATA SOURCE"

These building blocks are used to address collecting, linking, and analyzing of data to support the five core research functionalities.

# Addressing the Opioid Crisis through Better Data and Data Infrastructure—An Example of a Use Case

## Improving Timeliness and Quality of Outcomes Data

*Understanding impact of opioid epidemic on maternal and infant outcomes*

CDC (2019): MAT-LINK is a surveillance network that collects data, monitors maternal, child, and infant health outcomes

**ASPE**  
ASSISTANT SECRETARY FOR  
PLANNING AND EVALUATION

OFFICE OF  
HEALTH POLICY

## Building Capacity for Collection of Patient-Reported Outcomes

*Collecting patient-reported outcomes not available in the clinical record.*

NIH/NIDA (2018): The project is exploring the feasibility of collecting PROs related to opioid use after an ED visit through a patient-friendly app

## Building Linkages to Address Co-Morbidities

*Linking human services data with health data.*

ASPE, ACF (2019): Pilot testing a linkage between state Medicaid records and child welfare records into a single, harmonized dataset

OFFICE OF THE SECRETARY  
**PATIENT-CENTERED OUTCOMES  
RESEARCH TRUST FUND**

# Addressing COVID through Better Data and Data Infrastructure—An Example of a Use Case

## Use of Clinical Data for Research

- **ONC:** Using Machine Learning Techniques to Enable HIE Data Sharing to Support COVID-19 Focused PCOR

## Linking Clinical Data and Other Data for Research

- **NIH-CMS-ASPE:** A National COVID-19 Longitudinal Research Database Linked to CMS Data
- **ASPE-ACL:** Dataset on Intellectual and Developmental Disabilities (DIDD): Linking Data to Enhance Patient-Centered Outcomes

## Standardized Collection of Standardized Clinical Data

- **FDA:** CURE ID: Aggregating and Analyzing COVID-19 Treatments from EHRs and Registries Globally

## Collection of Participant Provided Information

- **NIH-AHRQ:** Understanding COVID-19 Risks, Course, and Outcomes in the Context of MCC (Multiple Chronic Conditions) Through e-Care Plan Development

## Use of Federal Data for Research

- **CDC:** Building Infrastructure and Evidence for COVID-19 Related Research, Using Integrated Data from NCHS Data Linkage Program

**ASPE**  
ASSISTANT SECRETARY FOR  
PLANNING AND EVALUATION

OFFICE OF  
HEALTH POLICY

OFFICE OF THE SECRETARY  
PATIENT-CENTERED OUTCOMES  
RESEARCH TRUST FUND

# Illustrative Examples of OS-PCORTF Products

## Datasets

- **CDC-CMS:** Linked NHCS and CMS Medicare Master Beneficiary Summary File (MBSF) data
- **CDC-NHCS:** NDI linked with the National Vital Statistics System mortality files on drug overdose deaths (NVSS-M-DO) file

## Software

- **CMS:** Blue Button 2.0 Application Programming Interface (API) Developer Sandbox
- **FDA:** MyStudies App

## Data Elements and Information Models

- **NIH:** NIH Common Data Elements Repository
- **AHRQ:** Libraries of Clinical Definitions for Outcome Measures

## Tools and Guides

- **FDA:** Data Quality Metrics (DQM) Tool
- **CMS:** Source Data Capture From EHRs: Using Standardized Clinical Research Data

## HIT Standards

- **ONC:** Patient Reported Outcomes FHIR Implementation Guide
- **FDA:** Women's Health Technology CRN FHIR Implementation Guide

## Stakeholder Engagement

- User, TEP, or workgroup engagement documentation
- Training
