

## Presenter Biosketches

### Day 2: Tuesday, May 23, 2023

**Andrew M. Penner** is professor of sociology and founding director of the Center for Administrative Data Analysis at the University of California, Irvine. He has a Ph.D. in sociology from the University of California, Berkeley. Dr. Penner has conducted research examining inequality in education and the labor market using unique linked data. His past work has been published in *Science*, the *Proceedings of the National Academy of Sciences*, and *Nature Human Behaviour*, and has been supported by the Eunice Kennedy Shriver National Institute of Child Health and Human Development, the National Science Foundation, and the Institute of Education Sciences. Dr. Penner's work has been covered in outlets such as the New York Times, the Washington Post, the Wall Street Journal, and Danish tabloids.

**Kelly Dauberman** is a supervisory statistician at the IRS, Statistics of Income. She oversees the formulation and execution of statistical programs related to tax-exempt organizations, and estate and gift tax, as well as the annual publication of the IRS Data Book. Before assuming her supervisory role, she was a senior economist for the Statistics of Income with a focus on tax-exempt bonds. Ms. Dauberman graduated from the University of Maryland, College Park, with a bachelor's degree in economics. She has an M.A. degree in economics from the Johns Hopkins University.

**Peggy Carr** is commissioner of the National Center for Education Statistics. Dr. Carr previously served as the associate commissioner of assessment for NCES, where she oversaw the National Assessment of Educational Progress (NAEP) and a portfolio of large-scale international assessments. At NCES, Dr. Carr played a lead role in planning, directing, and managing NAEP and the international assessments through several major milestones, such as the transition from paper-and-pencil assessments to digitally based ones. Most recently, she led the development and implementation of the NAEP Monthly School Survey and the School Pulse Panel. She has a Ph.D. in developmental psychology from Howard University. In 2008, she was awarded the

Meritorious Executive Rank Award for sustained superior accomplishments in management of programs by President George W. Bush.

**Larry Cordell** is senior vice president of the Risk Assessment, Data Analysis, and

Research (RADAR) Group at the Federal Reserve Bank of Philadelphia. Dr. Cordell previously served as a special advisor in several Federal Reserve System initiatives during the financial crisis, including: The examination team that evaluated the capital adequacy of Fannie Mae and Freddie Mac; the Supervisory Capital Assessment Program (SCAP); and the 2010-2022 Dodd Frank Act Stress Tests (DFAST). He has also served as an adjunct professor in Penn State

University's Master of Finance Program. Dr. Cordell has published widely in areas of fixed income research, real estate economics and banking and finance. He has a Ph.D. in economics from the University of North Carolina at Chapel Hill.

**John W. Towns** holds two appointments at the University of Illinois at Urbana-

Champaign. He is the executive associate director for engagement at NCSA (the National Center for Supercomputing Applications, <http://www.ncsa.illinois.edu>), and deputy CIO for research IT (<http://researchit.illinois.edu>) in the Office of the CIO at Illinois.

With over 30 years of experience in the field, Mr. Towns has played a significant role in furthering the use of advanced research computing and data technologies for scientific research and education. He has held various leadership positions in national and international organizations and efforts, including being the founding chair of the Steering Committee of PEARC (Practice and Experience in Advanced Research Computing (<http://www.pearc.org>)).
